SELECTMEN'S REPORT.

FELLOW CITIZENS OF HYDE PARK:

The Board of Selectmen submit the following as their annual report for the year ending January 31, 1900:

Before presenting the details of the several departments, we first call attention to the subject of

FINANCE.

The funded debt of the town January 31, 1899, was as follows:

Stone Crushing Plant loan,	\$ 1,000
School Buildings bonds,	10,000
Sewerage bonds,	145,000
Public Library Building bonds,	25,000
	\$181.000

In addition to the interest payment the town has paid during the year \$10,000 of the above bonds, and as no new bonds were issued, the total funded debt January 31, 1900, has been reduced to \$171,000. Further, the town paid the following amounts which were appropriated in 1898:

Public Library land,	\$ 6,500
Norway Park,	1,200
Widening Hyde Park Avenue,	14,000
	\$24,700

These items, together with the grade crossing payment and the increased Metropolitan Assessments, brought the tax rate to a high figure, notwithstanding economical town expenditures. In past years it has been the custom in special town meetings to make appropriations one year to

be paid the next. As no money was appropriated in 1899 to be paid in 1900, we have good reason to expect a lower tax rate this year.

METROPOLITAN ASSESSMENTS.

The subject of Metropolitan Assessments is one of great importance to the town. They first made their appearance in our financial affairs three years ago, and have increased in amount each year since.

The past year the town paid as follows:

Metropolitan Sewer,	\$13,345.32
High Level Sewer,	1,896.41
Metropolitan Water,	758.55
	\$16,000.28

These amounts, with the Readville grade crossing assessment of \$8,873,14, make a total of \$24,873.42 paid, in the expenditure of which the town had no voice.

READVILLE GRADE CROSSING.

According to the reports received from the State Auditor from time to time, it appears that there has been expended to Nov. 1, 1899, in connection with the work of abolishing the grade crossings at Readville and for the new bridge at Allen street, about \$855,000 exclusive of land damages.

The work is now practically complete. Under the Massachusetts statute abolishing grade crossings, the town's share would have been ten per cent., but the Legislature of 1896, by a special Act, fixed the proportion to be paid by Hyde Park in this case at 13 1-2 per cent. The assessment is to be divided into twenty annual payments which will vary each year. The first, made in December last, was \$8873.14.

HIGHWAY DEPARTMENT.

The Board reappointed Superintendent of Streets Henry M. Phipps, who has served the town in that capacity for several years and given general satisfaction.

The town appropriated for highways \$16,000, which has been expended in a careful manner, and no further appropriation for this department was asked for.

In addition to the general repairs necessary every year a large part of the money was expended for improvements of a permanent nature, more particularly described in the Superintendent of Streets' report on another page.

NEW STREETS.

The only new street which the town was called upon to accept during the year was the extension of Hyde Park avenue from Hawthorne street to the Trotting Park entrance. This was voted in town meeting Sept. 13. No appropriation was made as the expense of construction was borne wholly by the Norfolk Suburban Street Railroad Co., as per agreement with the Selectmen.

HYDE PARK AVENUE.

The widening of Hyde Park avenue near the Boston line and at Cleary square, making an 80-foot street at these points, as decreed by the County Commissioners and voted by the town in 1898, more fully described in the last town report, was completed last spring, and the Commissioners have approved the work. All claims for land damages were settled by the Selectmen without litigation, and all bills have been paid.

According to the terms of the decree the county was to pay the town \$5908 as its share of the cost of this improvement. In consideration of the thoroughness of the construction the Commissioners awarded the town \$1207 in addition to the decree, and the whole amount, \$7125, has been received by the town.

WEST RIVER STREET WIDENING.

On the petition of citizens a public hearing was held July 18, before the County Commissioners on the question of

widening West River street from Fairview avenue to a point near the house of Thomas Wallace.

West River street is 50 feet wide in most parts, but in this section, commonly called "between the ponds," it was much narrower—at one point only 26 feet. The retaining walls had commenced to cave into the water, making it very dangerous to travel. A decree was issued by the Commissioners laying it out to a 50-foot width. Sept. 13 the town appropriated \$3000 for the work, which is now complete, including the building of a new bridge and fencing,—all paid for within the appropriation and completed within the time named by the Commissioners.

STREET WATERING.

For this department the town appropriated \$3500. There is a small balance unexpended. A new watering cart was purchased for use in the Readville district. New water cranes were erected at convenient points and the town divided into five districts, each with a cart. Under the direction of the Superintendent of Streets the work was being well carried on when, on June 6, a letter was received from the Hyde Park Water Company stating that on account of the small supply of water no more could be sold to the town for that purpose until further notice, and this condition existed throughout the season.

Arrangements were made with the New York, New Haven & Hartford Railroad and the cart in the central section supplied from the standpipe at Fairmount avenue crossing at the same price charged by the Hyde Park Water Company.

We wish to express our appreciation of the courtesies extended the town by the Tileston & Hollingsworth Company, the Becker-Brainard Milling Machine Company, Glover & Willcomb, and the Hyde Park Electric Light Co.,

all of whom supplied water to the carts in their sections of the town free of charge.

STREET LIGHTS.

The lighting of the streets, as in former years, has been done by the Hyde Park Electric Light Company under the ten-year contract made Jan. 6, 1898. During the year there have been added by vote of the town 3 arc and 8 incandescent lights, making a total of 131 arc and 71 incandescent lights. In the Clarendon Hills district, near the Boston line, a few oil lamps are still in use.

POLICE DEPARTMENT.

One of our first official acts was the reappointment of Chief of Police James McKay and the regular patrolmen, Daniel O'Connell, J. A. Cullen, John M. Brown, Fred C. Bigelow, Elmer P. Runnells, and Alexander Schwab, all of whom had rendered the town faithful service in previous years. On April 27 Chief of Police McKay tendered his resignation to accept a position on the State force. We deeply regret the loss to the town of an efficient official and a good citizen. To fill the vacancy the Board appointed patrolman Daniel O'Connell, who has been connected with police work in this town for twenty-nine years. Special officer Michael J. Maguire was promoted to patrolman.

FIRE DEPARTMENT.

The Selectmen appointed as engineers of the Fire Department, J. C. McDongald, John H. Wetherbee and Willis G. Robinson, each of whom has had many years' experience in the department. By their efficient management, and the good work of their men, the department is now in good condition.

The Engineer's report, with the details of expenditures and the list of fires during the year, will be found on another page.

FIRE HYDRANT SERVICE.

By vote of the town there have been added during the year two new hydrants, making a total of 183 hydrants now paid for by the town under the ten-year contract with the Hyde Park Water Company.

The cost of their service to the town during the past year was \$5,773.22.

TOWN VAULT.

In the Selectmen's report of last year, the town's attention was called to the inadequate vault room for the storage of the town records, as required by law.

At the town meeting last spring \$800 was appropriated for this purpose.

This vote has been carried out, and we have had constructed within the appropriation a new and commodious vault, fitted with metallic fixtures, according to law.

ACTIONS AT LAW.

Lomelia A. Bickford, Administratrix of the estate of Levi B. Bickford, vs. Town of Hyde Park.

The action was brought in January, 1895, in the Superior Court for Norfolk County, to recover, as was alleged, taxes paid by the deceased on land on East River Street and Providence Street, referred to in different town reports since 1895. The case was tried at the May sitting, 1896, and upon the ruling of the Justice of the Superior Court, a verdict was rendered for the plaintiff for the amount of her claim, namely, \$204.47, and interest thereon since 1878. The exceptions of the town to the ruling of the court were argued in the Supreme Judicial Court last November. By a decision handed down June 29, 1899, it was held that the action could not be maintained, and judgment has been entered in favor of the town. Defendant's taxable costs in

this case amounted to \$63.80, which amount was applied to the reduction of the judgment in the following case.

Lomelia A. Bickford vs. Town of Hyde Park (referred to in town reports since 1897).

Petition returnable in November, 1897, for damages for injuries to her premises and well thereon by reason of the construction of a sewer in East River Street, and the draining of her well. The case first came on for trial at the May sitting of the Superior Court at Dedham, in 1898, when a verdict was ordered for the town. The case was taken to the Supreme Judicial Court by the plaintiff, on exceptions, which were argued at the November sitting, 1898, of that court, and in July last a decision was reached sustaining the exceptions, and determining that the plaintiff was entitled to recover; and judicially interpreting the Hyde Park Sewer Act. The case came on for trial again in the Superior Court last October, and a verdict was rendered for the plaintiff for \$1,000. A motion for a new trial was made on behalf of the town, on the alleged ground . that the verdict was excessive; but after hearing, it was overruled and judgment was entered on the verdict on the 4th of December, 1899.

Emily R. Hawes vs. Town of Hyde Park.

Petition for damages for injuries done to her premises by draining her well, more fully described in the last annual report. The petition is still pending.

Mary A. E. Murphy vs. Town of Hyde Park.

(Referred to in last annual report.) Petition for damages to her estate on account of the construction of Westminster Street, returnable in November, 1898, in the Superior Court, Norfolk County. This case has been settled for \$1000.

John J. Loud vs. Town of Hyde Park (referred to in last annual report).

Petition for damages to petitioner's estate on account of the construction of Westminster Street, returnable in November, 1898, in the Superior Court, Norfolk County. This case has been settled for \$128.21.

The four petitions for land damages by Washburn, Eustis, Hurter and Bursch, growing out of taking by the Sewer Commissioners, under the Sewer Act, (more fully described in the last annual report) for sewer construction on the easterly side of Neponset River, are still pending. Hearings have been had before Charles A. Williams, Esq., Auditor, on different days between January 28, 1899, and January 13, 1960, inclusive. The auditor made his report and awarded damages as follows:—

Jennie F. Hurter, \$3,000, and interest from July 15, 1897. Eliza G. Washburn, \$2200 " " " " Mary M. Bursch, \$700 " " " " Mary A. Enstis, \$1200 " " "

These awards are deemed by us and the Sewer Commissioners, as well as by counsel for the town, to be excessive. An inspection of the auditor's reports in these cases indicates that evidence introduced in behalf of the town did not receive the consideration to which the representatives of the town believed it was entitled. Though requested to do so, the auditor declined to state in his reports the grounds of his finding. The auditor's reports are not decisive of these cases. There is a question of law raised in these cases that may call for a judicial interpretation by the court.

Of the fifty-one petitions for land damages growing out of the abolishment of grade crossings, (more fully described in the last annual report) twenty-one have been settled; three have been heard in the Superior Court, two of which are now pending in the Supreme Judicial Court on questions of law, and twenty-seven are now pending before the auditor. The petitions by George S. Lee, Trustee, George S. Lee, Administrator, Lola B. Page, and the Real Estate and Building Co., on account of decree of the County Commissioners (more fully described in the last*annual report) are still pending.

The following cases, caused by sewer construction, were the only suits brought against the town during the past year.

Charles F. Allen, et al, Trustees vs. Town of Hyde Park. Elizabeth S. Coleman vs. Town of Hyde Park.

Two petitions for damages growing out of the construction of the town sewer through petitioners' premises between Beacon Street and the Neponset River. These cases were entered in the Superior Court in August and September, respectively, and are now pending before an auditor.

Mary Gallagher vs. Town of Hyde Park.

This is an action of tort for \$4000, brought in December, 1899, returnable in the Superior Court next February, to recover for alleged personal injuries caused by the alleged defect in a highway, growing out of the sewer construction.

FRANK B. RICH, FRED Y. FRENCH, EDWARD Q. DYER, JOHN JOHNSTON, ALONZO W. DUNBAR,

Selectmen of Hyde Park.

January 31, 1900.

SYNOPSIS OF THE TOWN CLERK'S RECORD OF TOWN MEETINGS.

The following statement shows in a condensed form the action of the town on the various articles which have been before it for consideration the past year.

MARCH 6, 1899. The annual meeting for choice of town officers was held in Waverly Hall; no other business was transacted.

March 29, 1899, a Town Meeting was held in Waverly Hall, when the following articles were acted upon:

ART. 1. To choose a moderator to preside at said meeting.

Edwin C. Jenney, Esq., was chosen moderator.

ART. 2. To see if the town will accept the list of jurors as prepared by the Selectmen and posted according to law.

The list was amended and accepted.

ART. 3. To hear the report of the Selectmen in regard to guide boards, and act thereon.

Report made and accepted.

ART. 4. To see what disposition the town will make of the money received from dog licenses for the year 1898.

To the public library for purchase of new books.

ART. 5, To see what compensation the town will vote to pay for collecting its taxes the current year.

Voted to pay \$1500.

ART. 6. To fix the salaries of the town officers for the current municipal year.

Selectmen, \$200 each; Assessors, \$300 each; Overseers of the Poor, \$150 each; Town Clerk, \$250; Town Treasurer, \$500; Board of Health \$100 each: Auditors, \$25 each; Cemetery Commissioners, \$50 each; and Sewer Commissioners, \$100 each.

ART. 7. To determine what compensation shall be allowed the Clerk of the Board of Sewer Commissioners for the ensuing year.

\$600, same as last year.

ART. 8. "To see what compensation the town will vote to pay the Secretary of the Board of Assessors, and for extra clerical services for the Board for the current municipal year."

\$250 voted for this purpose.

ART. 9. To fix the compensation of the engineers and the several members of the fire department for their services the current municipal year.

Chief Engineer, \$150; Assistants, \$75 each; "Permanent" Men, \$700 each; "Call" Men, \$75 each, (same as last year except that "Call" Men are paid \$75 instead of \$50, as heretofore)

ART. 10. To see what discount the town will vote to allow on all taxes paid on or before October 1, 1899; and what interest the town will vote to charge on taxes for the current year when the same shall be overdue.

No discount allowed: Interest at rate of six per cent. per annum on overdue taxes.

ART. 11. To see what sum the town will appropriate for furniture and fixtures for the new public library building, and how the same shall be raised.

\$2500 voted for this purpose — to be taken from money in hands of Treasurer received from the Commonwealth as compensation for the taking of "Happy Valley" lands for park purposes.

ART. 12. To see if the town will authorize the Selectmen to provide an additional fire-proof vault for the preservation of the public records, plans, etc., and appropriate money therefor.

Selectmen were so authorized, and \$800 appropriated therefor, the same to be taken from the money now in the Treasury designated under Article 11, above.

ART, 13. To see if the town will appropriate one hundred and fifty dollars to Post 121, Grand Army of the Republic, for the expense of decorating the graves of deceased soldiers.

So appropriated.

ART. 14. "To see what sum the town will appropriate for the celebration of the Fourth of July, 1899."

\$250 appropriated therefor.

ART. 15. To see if the town will appropriate the money now in the hands of the Treasurer, received by him as sidewalk, street or Board of Health assessments or betterments, and all money which shall be received by him the current year on account of such assessments or betterments, for the purpose of constructing or repairing public ways.

So appropriated.

ART. 16. To see if the town will appropriate the money to be received this year by the Town Treasurer, for or on account of Corporation and National Bank Taxes, for the payment of the fire hydrant service of the town.

So appropriated.

ART. 17. To see if the town will authorize its Selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our street lighting contract, for lights to be placed as follows: One are light on Norton street; one incandescent light on Milton avenue; and one incandescent light on East River street, near the paper mill.

Selectmen were so authorized.

ART. 18. To see if the town will authorize its Selectmen to contract with the Hyde Park Water Co., for the remainder of the term of the town's contract with said company for fire hydrants to be located as follows: One hydrant on Business street; one hydrant on East River street, near paper mill.

Selectmen were so authorized.

ART. 19. To see what amount the town will vote to raise by taxation, to meet the expenses of the town the current year, the deficiencies of last year, and the notes and bonds of the town maturing the present year, and how the same shall be appropriated.

Voted to raise by taxation the current year the sum of one hundred seventy-one thousand six hundred thirty-five dollars, and to appropriate the same 2s follows:

Support	of	schools:

	For Salaries and	Fuel	,		. \$	40,000	00	
	Incidentals,					4,300	00	
	Text books a			es,		3,700	00

	D- 41 (T 1							250 00
Mo	ney voted in 1898 an	d pa				1899,		24,700 00
								\$171.635 00

^{* \$1500} transferred from "Incidentals to "Salaries," after vote under Art. 19.

ART. 20. "To see if the town will reconsider the vote taken March 20, 1896, whereby it was voted to adopt the provisions of Chap. 186 of the Acts and Resolves of 1895, relative to the watering of streets in towns."

Voted to reconsider said vote of March 20, 1896. Voted that we do not adopt the provisions of said chapter.

ART. 21. To see if the town will authorize its Collector of Taxes to use all means of collecting the taxes which a Town Treasurer, when appointed a Collector, may use.

So authorized.

ART. 22. To see what amount the town will authorize its Treasurer to borrow, in anticipation of the tax to be levied the current year.

Treasurer authorized to borrow amount not exceeding \$100,000.

ART. 23. To see if the town will authorize its Treasurer, with the approval of the Selectmen, to borrow money to renew or replace any loan or loans.

So authorized.

ART. 24. "To see what action the town will take in regard to the recommendation of the Board of Auditors as appears in the town report."

Messrs. Arthur C. Kollock, Prince W. Taylor and George T. Brady appointed by the moderator, a committee to consider the subject suggested by this article, and to report at a future meeting.

Adjourned at 9.50 P. M.

SEPT. 13, 1899, a town meeting was held in Waverly Hall, when the following articles were acted upon:

ART. 1. To choose a moderator to preside at said meeting.

David W. Murray, Esq., chosen moderator by acclamation.

ART. 2. To see if the town will vote to raise and appropriate a sum of money sufficient to carry into effect the decree of the County Commissioners, dated July 18, 1899, re-locating West River street.

\$3000 appropriated; to be taken from money in the treasury received from County on account of Hyde Park avenue.

ART. 3. To see if the town will authorize its Selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our Street Lighting contract, for one electric arc light and four incandescent lights to be placed near the new railroad station at Readville; one incandescent light on Charles street; and one incandescent light on Easton avenue.

So authorized.

ART. 4. To hear the report of the Selectmen laying out that part of Hyde Park avenue which is south of Hawthorne street, as a public town way, and to see if the town will accept and allow said laying out with the boundaries and admeasurements of said way as shown by report, plan and profile now on file in the Town Clerk's office.

Report made and "laying out" accepted and allowed.

ART. 5. To see if the town will appropriate the sum of \$1000 to satisfy the judgement obtained by Mary A. E. Murphy against the town.

\$1000 appropriated; to be taken from unexpended balances of appropriations for new streets, made in 1896 and 1897.

ART. 6. To see if the town will, by vote, change the name of that part of the 'public way now known as Hyde Park avenue which extends from the new location of Hyde Park avenue, (as recently determined), near its junction with Milton street, northerly to land of the New York, New Haven & Hartford Railroad Co.; the name of that part of the public way known as Milton street, which lies between Prescott street and the Milton town line to "East Milton

street"; and that part of said Milton street which lies between Sprague street and the Dedham town line to "West Milton street." Also to see what name the town will give the "square," so called, which is bounded by Hyde Park avenue, Milton and Prescott streets.

Name of that part of Hyde Park avenue mentioned in first section of this article, changed to "Blue Hill Court." The name of Milton street (either section) was left unchanged. The name "Wolcott Square" was given to the "Square" described in this article.

ART. 7. To see if the town will authorize its treasurer to borrow money in anticipation of sewer assessments levied or to be levied under vote of the town, March 24, 1897.

Treasurer authorized to borrow \$40,000 in anticipation of said assessment.

Adjourned at 8.55 P. M.

Nov. 7, 1899, the annual meeting for choice of State, District and County officers, was held in Waverly Hall. No other business was transacted.

Jan. 24, 1900, a town meeting was held in Waverly Hall, when the following Articles were acted upon:

ART. 1. To choose a moderator to preside at said meeting.

Clifton B. Carberry, Esq., was chosen moderator.

ART. 2. To see if the town will make an additional appropriation for incidentals.

\$2000 appropriated; same to be taken from money on hand, received from County of Norfolk on account of widening of Hyde Park avenue.

ART. 3. To see if the town will authorize its Selectmen to contract with the Hyde Park Electric Light Co., for the remainder of the term of our Street Lighting contract, for two incandescent lights to be placed on Arlington street, near Elm street.

Authorized to contract for one are light.

ART. 4. To see if the town will make an additional appropriation for the support of the poor.

\$700 appropriated; same to be taken from money on hand, received from sale of Happy Valley Park land.

ART. 5. To see if the town will appropriate the money now in the hands of its treasurer, received by him under the provisions of Sections 5, 9 and 28 of Chapter 578 of the Acts of the year 1898, for the construction, repair and maintenance of the public ways, and the removal of snow therefrom.

So appropriated.

ART. 6. To see if the town will make an additional appropriation for the use of the Board of Health.

\$500 appropriated; same to be taken from money on hand, received from sale of Happy Valley Park land.

ART. 7. To see if the town will appropriate money to satisfy the judgement obtained by Lomelia A. Bickford against thetown.

\$1140.97 appropriated; same to be taken from money on hand, appropriated for construction of sewers, and sewer commissioners are requested to draw order for payment of same.

Adjourned at 8.25 P. M.

REPORT OF SUPERINTENDENT OF STREETS.

TO THE HONORABLE BOARD OF SELECTMEN:

Gentlemen, — I herewith submit my report for the year ending January 31st, 1900.

There are in this department, one steam roller, one derrick with rigging, five horses, five water-carts, two double and one single road carts, one road machine, one stone rigging, one two-horse roller, nineteen snow plows, and miscellaneous tools. There was added the past year, one two-horse snow sled. All of the above being in excellent condition.

There has been 1600 feet of new paved gutters built and 1300 feet of old gutters relaid, seven new catch basins constructed and three rebuilt; also four new stone culverts. We have taken up 3600 feet of old plank side walk and replaced the same by gravel and stone dust; 2000 feet of new fence has been built, 1168 feet of edge stone set, 200 feet of granolithic sidewalk laid, 650 feet of new sidewalk and 1455 feet resurfacing old concrete. One push cart, two wheelbarrows, and three waste barrels have been added to the street cleaning department.

The bridges on Fairmount Avenue and also on Hyde Park Avenue, over Mother Brook, have been repaired.

Twenty new sign posts have been put up during the year.

Besides the general repairs that are necessary at all times of the year, there have been about 2000 tons of crushed stone used on our streets, and we have about 700 tons on hand. Respectfully submitted,

HENRY M. PHIPPS,
Superintendent of Streets.

REPORT OF THE INSPECTOR OF BUILDINGS.

TO THE HONORABLE BOARD OF SELECTMEN:

Gentlemen—Following is the annual report of the Inspector of Buildings for the year ending January 31, 1900:

Whole number of permits issued,	116
For new buildings,	65
For additions and alterations,	51
Number of notices sent to persons who had com-	
menced operations without a permit,	5
Number of visits made to the various buildings in	
process of erection and alteration, wood work-	
ing and machine shops, waste boxes, back	
yards, investigating cause of fires, inspection	
public halls, etc.,	251

I find that people in general have become familiar with the fact that there is a building law, also that there is a law requiring them to care for combustible material, and that they have complied with the same as well as could be expected under the circumstances. There has been but one complaint entered in regard to waste material which, on notice, was removed.

I have submitted my annual report to Rufus R. Wade, Chief of District Police, State House, Boston, Mass.

I wish to extend my sincere thanks to the Board of Selectmen, to the contractors, and all others whom I have met, for the courtesy shown me in the performance of my official duties. Respectfully submitted,

RICHARD F. BOYNTON,
Inspector of Buildings.

REPORT OF CHIEF OF POLICE.

Office of Chief of Police. Hyde Park, Mass.

250

To the Honorable Board of Selectmen:

Gentlemen — I have the honor to submit herewith tor your consideration the annual report of this department for the financial year ending January 31, 1900, which includes the first three months of my predecessor.

Whole number of persons arrested,	25 0
Males,	232
Females,	18
CAUSES FOR ARREST.	
Adultery,	2
Assault and battery,	19
Assault with a dangerous weapon,	1
Bastardy,	2

Travellers lodged over night,	1990

FINAL DISPOSITION OF CASES.	
Appealed,	2
Committed to House of Correction for non-payment of	fines, 84
Committed to Insane Asylum,	8
Discharged,	5
Defaulted,	1
Grand jury,	2
House of Correction,	20
Paid fines,	61
Probation,	49
Placed on file,	2
Reformatory at Sherborn,	1
Reformatory at Concord,	1
State Prison,	1
Turned over to other officers,	10
Work House at Bridgewater,	1
Continued,	2

Having been appointed Chief of Police to take effect on the first day of May, last, I found everything in good condition in and about the Station, and it has been my endeavor to keep it so. The Police Force during the past year has consisted of seven regular men, five being assigned to allnight duty. I would respectfully recommend that the fines received by the town in criminal cases be placed to the credit of the Police Department. I would also recommend a patrol wagon to be so constructed that it can be used as an ambulance. In concluding I desire to express to the members of the Police Force my appreciation of the goodwill and cordial relations existing among them, and to the Selectmen, who have in many ways assisted me in promoting the success of the Department, I extend my thanks.

Respectfully submitted,

DANIEL O'CONNELL, Chief of Police.

250

REPORT OF ENGINEERS OF THE FIRE DEPARTMENT.

TO THE HONORABLE BOARD OF SELECTMEN:

Gentlemen — The Board of Engineers herewith present their annual report for the year ending January 31st, 1900.

The Department has responded to 57 alarms during the past year, 35 bell and 22 still, 3 of which were in Dedham.

	Value.	Loss.	Insurance.
Buildings,	\$110,100 00	\$6,781 00	\$101,185 00
Contents,	14,300 00	5,250 00	10,475 00

We have bought 1000 feet of hose and 250 feet of chemical hose, and have connected the Central Station with the sewer.

We have re-located and repaired Hose 3 House, at Readville, at an expense of \$300. We have also added a new exercise wagon.

The apparatus now consists of two hose wagons, one hose reel, one hook and ladder truck, one chemical, and one exercise wagon; also seven horses.

We have 4,500 feet of hose in good order, 1000 feet in poor order, 250 feet of chemical hose.

The storage battery which we have had on trial has proved very satisfactory and economical, and we would recommend that it be purchased.

The department consists of chief engineer, two assistant engineers, five permanent men and thirty-three call men, making a total of 41 men.

The excellent fire duty done by both the permanent and call force, in heat and cold, during the year, cannot be too highly commended.

J. C. McDOUGALD, Chief,

JOHN H. WETHERBEE, Clerk. WILLIS G. ROBINSON.

The number of deaths from some of the well-known causes is as follows:

IOHOWS:						
Accident			6	Paralysis and A	poplexy	15
Consumption			31	Stillborn .		11
Pneumonia			18	Old Age		. 16
Cholera Infan	tum		8	Bright's Disease		3
Diphtheria			3	Typhoid Fever		1
Cancer and Tu	mor		7	Scarlet Fever .		1
Heart Disease			13	Marasmus .		11
Convulsions			12			

The following are the names of those who died in Hyde Park, and of residents of Hyde Park who died elsewhere, during the year 1899:

ANNUAL REPORT OF CEMETERY COMMISSIONERS.

During the year work on Beech Avenue and Fairview Drive has been continued. A number of lots have been graded and prepared, and arrangement has been made for the further extension of these avenues.

The receipts and expenditures for the financial year ending January 31, 1900, have been as follows:

RECEIPTS.			
From sale of lots, \$	1,880 00		
From sale of single graves,	345 00		
Interment and receiving tomb charges,	555 00		
For foundations,	188 99		
For wood,	75 00		
, , , , , , , , , , , , , , , , , , ,		\$3,043	99
Balance on hand Jan. 31, 1899,		4,522	33
		\$7,566	32
EXPENSES.			
Labor, etc.,		\$1,595	42
Balance on hand Jan. 31, 1900,		\$5,970	90

For details of expenses we refer to itemized statement which accompanies this report.

REPORT OF THE OVERSEERS OF THE POOR.

The Overseers of the Poor herewith respectfully submit their report for the year ending January 31, 1900:

The additional cost of maintaining the Poor Department during the past year is due mainly to the increase in the number of panper insane, who are supported in State institutions at an average cost of \$3.25 per week. The number fully supported has also increased about 25 per cent. At present the monthly payments for rent aggregate \$62.00. During the year the amount paid for hospital charges and nursing has been unusually large, more than \$500.

The bill now before the Legislature, which provides that the entire cost of maintaining the pauper insane in all cities and towns shall be assumed by the State, if it becomes a law, would no doubt lessen the cost to the different municipalities, although the expense would be assessed and form a part of the State tax. From the present outlook the sum of \$8,000 will be required for the support of poor during the ensuing year.

There has been a marked decrease in the number of travellers applying for lodging as compared with the previous year, which indicates that the army of the unemployed has been very materially lessened.

The number of persons receiving aid, with a detailed list of expenditures, is hereto appended:

Whole number of persons aided,	2227
Number of persons fully supported,	34
Number of persons partially supported,	203
Number of tramps lodged,	1990

CHARLES LEWIS, GEORGE W. CHAPMAN, GEORGE E. HAVEN,

Overseers of the Poor.

REPORT OF BOARD OF HEALTH.

TO THE CITIZENS OF HYDE PARK:

We herewith present the following as our annual report for the year ending January 31, 1900:

In the early summer and spring months, as has been the case in former years, we received many complaints calling our attention to the need of better surface drainage in various parts of the town. These complaints were investigated and where a remedy or amelioration of the conditions were within our means, it has been applied.

Stony Brook, from a point near West Street to the line of the Metropolitan Park, has been deepened and widened so as to furnish a better outlet for the great amount of water draining into it. The condition of the brook would be greatly improved by widening and deepening to true grade the channel at the northerly end towards the Boston line.

The serious need of better drainage was also apparent near the N. Y., N. H. & H. Railroad, in the rear of Corson's and Raymond's stables. A suitable ditch was dug on the line of proposed Providence street, and cross ditches into the adjoining land, which have served to materially reduce the amout of water usually lying stagnant in that locality. But to make this complete the drain should be cut through to Stony Brook on the westerly side of the railroad, thereby farnishing not only a better outlet for water on the easterly side of the track, but drainage to other low and swampy land.

The branch from Stony Brook just south of Clarendon Hills Square was also cleaned from its junction with the brook to Huntington Avenue, but to make this permanent the main channel should be deepened, as has been stated before.

There yet remains much that should be done in the line of drainage for surface water in the district lying between Readville Street and West River Street, which is still a menace to the general health of the locality, and also many others of lesser magnitude but of fully as great importance.

SWILL AND GARBAGE.

The collection of swill has been carried on as in previous years and the service, we have reason to believe, has been on the whole satisfactory.

During the warm months we were obliged to have an extra team in this work in order to make two collections each week.

The question of garbage collection has been brought to our attention several times during the past year in connection with numerous complaints in regard to the general custom prevailing in the town of dumping refuse matter in any convenient place or places that may be found about the town. There are probably twenty or more such places in and about the town, and as the matter usually dumped on them is not such as to create noisome odors by decaying, there is no present remedy if the owners of the land desire to use the same as a dump. However, if suitable provisions were made for the collection of house and store dirt, ashes, etc., and a dump properly cared for or the waste matter destroyed, the town would present a much cleaner appearance and go far towards making Hyde Park a model town.

We have now two horses and three wagons, with the other necessary equipments to carry on the swill collection, but have no provision for stabling or proper care of the same except such as we are able to hire. This state of affairs is wrong, and the property of the town cannot receive proper care and supervision under such conditions.

CONTAGIOUS DISEASES.

We feel that the citizens have good cause for congratulation on the continued reduction in the number of contagious or preventive diseases over that of former years.

The whole number of cases of contagious disease reported to the Board during the year is 110 as against 142 in 1898 and 160 in 1897, divided as follows:—Diphtheria and membraneous croup, 25 cases with 3 deaths; measles, 8 cases, no deaths; typhoid fever, 17 cases, one death; scarlet fever, 60 cases, one death.

The total mortality from contagious disease for the year was five, as against eleven for 1898.

The method of quarantine in contagious cases has been the same as in former years, and the disinfection and fumigation by formaldeheyde gas has been continued by the Board with very gratifying results, as has been shown.

The number of cases of scarlet fever was doubtless increased by the mild form in which it has prevailed during the past year. In many cases the symptoms were not pronounced enough to be recognized, consequently they were not reported by the parents, and the children returned to school before being free from contagion.

During the summer we had cause to investigate several cases of typhoid fever that seemed to show common cause or causes for infection. It was found that the trouble could be attributed almost wholly to the milk supply in the families. The milkmen were instructed as to the proper methods for the care of their product, and since then there have been no cases that could be traced to that source.

We have continued to furnish diphtheria anti-toxine free to all physicians who desired it, and in the last year we supplied them with seventy-four bottles. The anti-toxine is made under the supervision of the State Board of Health and is furnished to the town free of charge. The Board desires to extend its thanks to the members of the medical profession for their promptness in reporting all cases of contagious diseases and their earnest efforts to carry out our regulations in regard to quarantine of suspected as well as positive cases, which has doubtless materially lessened the number of cases of contagion for the year.

SEWERAGE.

The ever-offensive and disease-breeding privy vault and cesspool are still being used to a great extent in those parts of the town already furnished with common sewers, but all those which were apparent nuisances and were brought to the attention of the Board, have been discontinued or temporarily remedied and allowed to remain in use only until such time as connection can be made with the sewer. We again advocate the more general use of the sewers, especially in the central portion of the town, and trust that during the coming year there will be a marked increase in the number of connections and consequent abolishment of many sources of disease.

In closing we would once more call your attention to the need of a proper building for stabling the horses and shelter for the wagons used by this department, and would respectfully recommend that such accommodations be provided the coming year. It is the opinion of the Board that the only method of removing the causes for complaint regarding the unsightly dumping places is to have the work done under somewhat the same method as the swill collection, and at a common dump which can be properly cared for.

A copy of the report of Health Officer and Inspector of Plumbing is appended hereto.

REGULATIONS OF THE BOARD OF HEALTH OF THE TOWN OF HYDE PARK.

PUBLIC STATUTES: CHAPTER 80, SECTION 18.—The Board of Health of a town shall make such regulations as it judges necessary for the public health and safety, respecting unisances, sources of filth, and causes of sickness within its town. Whoever violates any such regulation shall forfeit a sum not exceeding one hundred dollars.

In accordance with the foregoing provision of law, this Board makes the following regulations, which will be strictly enforced:

REGULATION 1. Privy Vaults and Drains. Section I. Every tenement shall be provided with a water-tight underground drain to carry off the waste waters, also with a suitable privy or water-closet sufficient for the accommodation of all those inhabiting the premises.

Section II. All privy vaults, unless water-tight, shall be so constructed that the inside of the same shall be at least five feet distant from the line of any adjoining let or street, and at least twenty feet from any dwelling house, and shall be provided with a ventilation through the roof. The same shall not be used as cesspools nor receive drainage from the premises. The contents shall not be allowed to leak out or otherwise become offensive. All privy vaults shall be of a size sufficient to satisfy the Board of Health.

Section III. All waste water shall be conveyed through sufficient drains under ground to a cesspool sunk underground, which shall be of sufficient size to contain at least 80 cubic feet, and when not water-tight must be at least twenty feet from the cellar wall of any tenement or dwelling, and at least five feet distant from any adjoining lot or street. Cesspools shall be built in a thorough and substantial manner, as shall be approved by the Board of Health.

Section IV. No person shall allow any drain or the overflow of any cesspool to enter any running stream, or any drain constructed for surface water, and no person shall suffer any house drainage or other offensive matter to remain in any cellar, or upon any lot or vacant ground by such person owned or occupied. All privy vaults and cesspools within one hundred and fifty feet of any well or spring, the water of which is used for domestic purposes, must be water-tight.

Section V. All privy vaults or cesspools must be thoroughly cleansed at least once in each year, and oftener if necessary for the public health, the expense to be borne by the owner of the property.

REGULATION 2. Section I. The Board, when satisfied upon due examination that a cellar, room, tenement, or building in the town occu-

pied as a dwelling place, has become by reason of the number of occupants, want of cleanliness, or other cause, unfit for such purpose, and a cause of nuisance or sickness to the occupants or to the public, may issue a notice in writing to such occupants, requiring the premises to be put in proper condition, or if the Board see fit they may require the same to be vacated, and the same shall not be again occupied without the written permission of the Board.

Section II. No person shall throw or put into any public place or pond, or running stream or body of water, or in any other place where the Board of Health may deem it a nuisance, any dead animal, animal matter, decayed fruit or vegetables, dirt or rubbish whatever; nor shall any person throw into or upon any flats within the jurisdiction of the town, any dead animals, filth, or offensive matter.

REGULATION 3. Swill and Offal. Section I. No person shall remove or carry in or through any of the streets, lanes, or avenues, places or alleys within the town of Hyde Park, the contents of any cesspool, vault or privy well, swill or house offal (either animal or vegetable), or grease or bones, unless a permit be granted by the Board of Health upon such terms and conditions as said Board may deem necessary.

Section II. No person shall bury swill or bouse offal, or the contents of any cesspool, vault, privy or privy well within the limits of the town of Hyde Park, unless a permit be granted by the Board of Health.

Section III. Parties will be licensed by the Board of Health to collect swill and refuse matter from houses in Hyde Park twice a week or oftener, and all housekeepers and others are directed to deliver the same to those duly authorized to make such collections.

REGULATION 4. Diseased Meat and Provisions. Section I. No preson shall bring into the town, keep or offer for sale any diseased, putrid, stale or unwholesome meat, vegetables or provisions.

REGULATION 5. Swine. Section I. No person will be permitted to keep any swine within the limits of the town of Hyde Park, without a written permit from the Board of Health.

REGULATION 6. Contagious Diseases. Section I. Any person sick with the small pox or other contagious disease, together with all persons in attendance upon them, and the premises where such sick person is, will be subject to the control of the Board, and no person shall enter or leave a house wherein a person is, or has been sick with the disease, or n any way come in contact with the inmates of such house except by permission of the Board.

Section II. Whenever the Board of Health shall ascertain that any person is sick with small pox, scarlet fever, diphtheria, or any other disease dangerous to the public health, the Board shall, at their discretion, have full control of said person or premises, and shall, if they deem proper, order the premises vacated.

Section III. All persons are warned not to approach a house or the surrounding premises whereupou is displayed a disease flag by day or a red light at night.

Section IV. The bodies of all persons dying of small pox, scarlet fever, typhus fever or diphtheria, must be immediately disinfected and placed in a tight coffin, which shall not be re-opened, and the bed, bed clothing, and other clothing used by any such person, and by those in attendance upon him, and all the furnishings of the sick room, thoroughly disinfected before being taken from the room. In the above case no public funeral will be allowed without permission from the Board of Health.

Section V. The owner or person having charge of any vehicle, public or private, used at a funeral in the foregoing cases, to carry the deceased, shall forthwith report the fact to the Board of Health, and shall thoroughly disinfect such vehicle before the same is again used, and take such precaution as the Board of Health shall direct.

Section VI. Any person in the Town of Hyde Park who knows or suspects any domestic animal has contagious disease (such as glanders in horses or cholera in swine), must immediately report the same to the Board of Health. The penalty for neglect to do so is fine or imprisonment. The above is in accordance with the provisions of Chapter 252 of the Acts of 1887.

REGULATION 7. Section I. All complaints in relation to nuisances and sources of filth injurious to the public health and safety, must be made in writing to the Board of Health, with a description of said nuisance and of the premises on which it exists, with the owner's name, if known to the complainant. Such complaints must bear the signature of the complainant. Whenever such complaint shall be made as aforesaid, the Board of Health shall proceed to examine the premises complained of, and will take measures to abate the nuisance if such is found to exist.

REGULATION 8. Section I. No person, firm or corporation not now engaged in or working at the business of plumbing shall hereafter engage in or work at said business in the town of Hyde Park, either as a master or employing plumber or as a journeyman plumber, unless such person, firm or corporation first receives a license therefor, in accordance with the provisions of Chapter 477 of the Acts of the year 1893 of the Commonwealth of Massachusetts and Acts amendatory thereof, or supplementary thereto.

Section II. Any person desiring to engage in or work at the business of plumbing, either as a master or employing plumber, or as a journey-man plumber, shall apply to the Board of Health, and shall at such time and place as may be designated by the Board of Examiners appointed by the Board of Health, as provided for in said Acts, to whom such appli-

cation shall be referred, be examined as to his qualifications for such business. In the case of a firm or corporation the examination and licensing of any one member of the firm, or the manager of the corporation, shall satisfy the requirements of this regulation.

Section III. The Board of Examiners shall examine said applicants as to their practical knowledge of plumbing, house drainage and plumbing ventilation, and if satisfied of the competency of the applicant, shall so certify to the Board of Health. Said Board will thereupon issue a license to such applicant authorizing him to engage in or work at the business of plumbing. The fees for a license for a master or employing plumber shall be two dollars; for a journeyman plumber it shall be fifty cents. Said license shall be issued annually, expiring on the thirty-first day of May next ensuing, and shall be conditional on skilful work, and a strict observance of the rules governing plumbing.

Section IV. No person shall carry on the business of plumbing unless he shall have first registered his name and place of business in the office of the Board of Health; and notice of any change in the place of business of a registered plumber shall be immediately given to said Board.

Section V. No person shall proceed to construct, add to, or alter any portion of the drainage system (except to repair leaks) of any building in the town of Hyde Park, until plans showing in detail the whole drainage system shall have been filed at the office of the Board of Health, upon blanks in such form as the Board may determine; no person shall commence work on such drainage system until the plans are accepted by the Inspector of Plumbing and a permit of approval granted. Plans and specifications shall be approved or rejected within five days of the time of filing.

Rules and regulations for material, construction, etc., may be found in the town by-laws.

REGULATION 9. The Board of Health hereby adjudges that the deposit of sputum in street cars, public buildings, or churches is a public nuisance, source of filth and cause of sickness, and hereby orders: That spitting upon any floor of any street car, public building or church be, and hereby is prohibited.

Fully believing that a large proportion of contagious diseases originate from unsanitary conditions, we trust that we shall have the aid of all citizens and property owners in carrying out the above regulations, which are based on statute laws, and the sanitary rules of our large towns. Respectfully submitted,

WILLARD S. EVERETT, M.D., Ch'm. EDWIN C. FARWELL, Secretary. WILLIAM W. SCOTT,

Board of Health.

To Willard S. Everett, M. D., Chairman, and Members of the Board of Health, Hyde Park, Mass.

Gentlemen:—I herewith submit to you my third annual report as Health Officer and Inspector of Plumbing for the year ending January 31, 1900.

It is with pleasure that I have to report that the number of cases of contagious diseases has been materially reduced from that of former years, which can be attributed largely to the better understanding of the necessary requirements to be followed in such cases.

Improvements have been made in appliances for the use of formaldeheyde gas, which have been taken advantage of with prospects of still better results than in former years.

Agreeable to your orders and in accordance with plans and estimates made, Stony Brook, for a distance of about one-half a mile north of the Metropolitan Park line, has been widened and deepened as much as the present levels of the water mains, as previously located, will allow. This has apparently been sufficient to accomplish your desires in this locality. However, the condition of the brook farther north needs considerable outlay of money to put it in proper shape in order that the section lying just south of Clarendon Hills may be properly drained.

The drain in the rear of the town stables and other property near the railroad has also been put in good condition and has doubtless carried off the water from that locality, as well as it can be done until further improvements are made in the channel of Stony Brook.

The horses and wagons used in the swill collections are in good condition generally, and the building covering the dump will continue to be of good service with few minor repairs. A drain has been put in from the tank, thereby removing any known cause for complaint in regard to the use of the building.

Quarantine notices have been posted on 85 houses in the town. Disinfection and funigation has been thoroughly done in all cases that have been quarantined, and also in twenty-two houses where there had been a case or cases of consumption,—in all over 190 rooms.

The general condition in the town is good and there is every prospect that under the present system it will continue. The condition of the dumps in various parts of the town is always a source of complaint.

It is respectfully suggested that as far as possible all complaints should be made in writing and signed, in order that the matter may be taken up properly and that suitable receptacles for swill be used to facilitate collections of the same.

INSPECTION OF PLUMBING.

There have been filed at this office 188 applications to do plumbing, of which 138 were for work in old buildings and 50 for work in new buildings. In 126 buildings the premises drain into the sewer, and in 56 into cesspools.

The fixtures used in buildings are as follows: Water-closets, 226; bathtubs, 92; wash bowls, 108; sinks, 198; wash trays, 54.

The general condition of the plumbing work done is very good, and I wish to thank the plumbers for their courtesy and earnest endeavors to improve the general sanitary condition of the buildings in town.

Respectfully submitted,

CALEB T. LOVELL, Health Officer and Inspector of Plumbing.

SEVENTH ANNUAL REPORT OF THE BOARD OF PARK COMMISSIONERS.

Although the year 1898 closed leaving a feeling of disappointment as to what had not been and might not be done by the Metropolitan Park Commission in the taking of land for the purifying of the Neponset River, and for a boulevard near it, the delay and possible abandonment being, as was understood, due to the high prices put by some of the owners upon their property, the last year of the century shows on the most important item for the welfare of our town, viz.: the purification of the Neponset River, considerable progress towards what was, without any question the intention of our Legislature in making the large appropriation of 1898.

Although it is within the power of our town officials to prevent the fouling of the stream by our people, any movement of this kind must be a radical one to accomplish this even within our own limits; and we cannot, through the ordinary channels, prevent the stream from being polluted outside of our town. Naturally, there is, and will be, hesitation in enforcing any provision which inconveniences and causes expense to our manufacturies and people until the sentiment of the town as a whole is in favor of such enforcement. Therefore, we believe that the takings which have been made the past year will meet with the approval of our citizens, and will undoubtedly result in making the Neponset a pleasure to those who live and work near it, instead of creating disgust for its present impure condition.

We believe in the policy which was so well and plainly expressed by the Chairman of the Metropolitan Commission in his address September 22, 1898, when he said as to the taking of the river banks, that "industries are not to be interferred with. It does not mean that there is any spirit on the part of the Commonwealth to come here and wipe out industries that happen to be located along the river."

The plans and descriptions of land taken have been filed during the current year in the following order:

May 27, 1899. For a boulevard taking the river banks just west of Glenwood Avenue station on the Midland Division of the N. Y., N. H. & H. R. R. to near Paul's Bridge. Plan No. 189.

October 2, 1899. From Paul's Bridge southwesterly to near the station of Green Lodge on the Providence Division of the same railroad, taking the Neponset River and adjacent territory to a width which covers all the low, wet meadow land. About 3000 feet in length of this taking is in Hyde Park and the balance in Canton and Dedham. Plan No. 187.

October 21, 1899. Additional taking near Gordon Avenue, entrance to Stony Brook Reservation.

December 28, 1899. Along the Neponset River, between Fairmonunt and Glover and Willcomb's, at Glenwood Avenue. Plan No. 200.

January 4, 1900. From Fairmount east along the Neponset River in Hyde Park and Milton, to Mattapan. Plan No. 226.

The following plans have been carefully compared with the descriptions, and after careful consideration have been assented to by this Board,

Sept. 18, 1899. To the taking of land near Gordon Avenue.

Sept. 25, 1899. To the taking shown on plan No. 187. Dec. 27, 1899. To the taking shown on plan No. 226; also on plan 200.

The takings so far as filed, practically control the pollution of the river from the Westwood town line to Fairmount Avenue, in Hyde Park, a distance of about three and one-half miles, and control the stream, on one side at least, from Fairmount Avenue to the northeast line of Hyde Park.

Not only will the people, in the near future, have guaranteed to them for all time a clean, pure stream, a prospect that will delight all of enjoying, as of old, the pleasure of boating and fishing, but in addition, will have unobstructed paths along its border. The beautiful scenery through which they will lead, the hand of man will not be able to improve.

During the year five applications for the removal of shade trees have been made, and the legal notices have been posted, hearings held, and permission to remove them granted as follows:

March 23, 1899. To E. O. Taylor, to remove three shade trees in front of his land on Lincoln Street.

April 22, 1899. To Willis G. Robinson, to remove three trees in front of No. 51 Lincoln Street.

May 29, 1899. To Trustees of the Public Library, to remove a tree on Winthrop Street.

Dec. 18, 1899. To the Selectmen, to remove two trees at the corner of West River Street and Fairview Avenue.

Aug. 8, 1899. Declined to allow a tree to be removed on Dana Avenue.

May 29, 1899. Voted to paint the flag pole on the park at Readville.

There has been additional legislation as to shade trees, the past year, which is as follows:

ACTS 1899, CHAP, 330,

An Act to Codify and Amend the Laws Relative to the Preservation of Trees.

Be it enacted, etc., as follows:

Section 1. Every town shall, at its annual meeting for the election of town officers, elect a tree warden, who shall serve for one year, and until his successor is elected and qualified. He may appoint such number of deputy tree wardens as he deems expedient, and may at any time remove them from office. He and his deputies shall receive such compensation for their services as the town may determine, and in the dafault of such determination, as the selectmen may prescribe. He shall have the care and control of all public shade trees in the town, except those in public parks or open places under the jurisdiction of park commissioners; and of these, also, he shall take the care and control if so requested in writing by the park commissioners. He shall expend all funds appropriated for the setting out and maintenance of such trees. He may prescribe such regulations for the care and preservation of such trees, enforced by suitable fines and forfeitures, not exceeding twenty dollars in any one case, as he may deem just and expedient; and such regulations, when approved by the selectmen and posted in two or more public places in the town, shall have the force and effect of town by-laws. It shall be his duty to enforce all provisions of law for the preservation of such trees.

Section 2. Towns may appropriate annually a sum of money, not exceeding in the aggregate fifty cents for each of its ratable polls in the preceding year, to be expended by the tree warden in planting shade trees in the public ways, or, if he deems it expedient, upon adjoining land, at a distance not exceeding twenty feet from said public ways, for the purpose of shading or ornamenting the same: provided, however, that the written consent of the owner of such land shall first be obtained. All shade trees within the limits of any public way shall be deemed public shade trees.

Section 3. Whoever, other than a tree warden or his deputy, desires the cutting or removal, in whole or in part, of any public shade tree, may apply to the tree warden, who shall give a public hearing upon the application at some suitable time and place, after duly posting notices of the hearing in two or more public places in the town and also

upon the said tree: provided, however, that the warden may, if he drems it expedient, grant permission for such cutting or removal without calling a hearing, if the tree in question is on a public way outside of the residential part of the town; the limits of such residential part to be determined by the selectmen. No tree within such residential part shall be cut by the tree warden, except to trim it, or removed by him without a hearing as aforesaid; but in all cases the decision of the tree warden shall be final.

Section 4. Towns may annually raise and appropriate such sum of money as they may deem necessary, to be expended under the direction of the tree warden in exterminating insect pests within the limits of their public ways and places, and in the removal from said public ways and places of all trees and other plants upon which such pests naturally breed: provided, however, that where an owner or lessee of real estate shall, to the satisfaction of the tree warden, annually exterminate all insect pests upon the trees and other plants within the limits of any public way or place abutting on said real estate, such trees and plants shall be exempt from the provisions of this section.

Section 5. Whoever affixes to any tree in a public way or place, a playbill, picture, announcement, notice, advertisement, or other thing, whether in writing or otherwise, or cuts, paints or marks such tree, except for the purpose of protecting it, and under a written permit from the tree warden, shall be punished by a fine not exceeding fifty dollars for each offence.

Section 6. Whoever wantonly injures, defaces, breaks, or destroys an ornamental or shade tree within the limits of any public way or place shall forfeit not less than five nor more than one hundred dollars, to be recovered by complaint, one half to the complainant and the other half to the use of the town.

Section 7. Whoever negligently or carelessly suffers a horse or other beast driven by or for him, or a beast belonging to him and lawfully in a public way or place, to break down, injure, or destroy a shade or ornamental tree within the limits of said public way or place, or whoever negligently or wilfully by any other means breaks down, injures, or destroys any such tree, shall be liable to the penalties prescribed in the foregoing section, and shall in addition be liable for all damages caused thereby.

Section 8. It shall be the duty of the tree warden to enforce the provisions of the preceding sections.

Approved May 4, 1899.

ACTS, 1899. - CHAP. 436.

AN ACT RELATIVE TO THE PROTECTION OF SHADE TREES. Be it enacted, etc., as follows:

Section 1. Section eight of chapter fifty-four of the Public Statutes is hereby amended by adding at the end thereof the following words:—"and shall forfeit not less than five nor more than one hundred dollars to be recovered by complaint; one haif to the complainant and the other half to the use of the municipality in which such injury is done,"—so as to read as follows:—

"Section 8. Whoever negligently or carelessly suffers a horse or other beast driven by or for him, or a beast belonging to him and lawfully on the highway, to break down, destroy, or injure a tree, not his own, standing for use or ornament on said highway, or negligently or wilfully by any other means breaks down, destroys, or injures any such tree, shall be subject to an action for damages at the suit of the owner or tenant of the land in front of which the tree stands, and shall forfeit not less than five nor more than one hundred dollars, to be recovered by complaint; one half to the complainant and the other half to the use of the municipality in which such injury is done."

Section 2. This Act shall take effect upon its passage. Approved May 27, 1899.

It appears from Section 1 of the Acts of 1899, Chapter 330, that it is now obligatory on the town to elect a Tree Warden, and that the local Park Commissioners, as commissioners, cannot act as tree wardens, and have control only of public shade trees in the public parks or open places under their jurisdiction.

This legislation is very satisfactory to this Board, but we hope the one chosen will have due regard to the beauty as well as utility of our shade trees.

LAWSON B. BIDWELL, Chairman, JOHN J. ENNEKING, Sec'ty., WILBUR H. POWERS.

Park Commissioners for the Town of Hyde Park.

ASSESSORS' REPORT.

VALUATION STATISTICS.	
May 1, 1899.	May 1, 1898.
Buildings \$5,417,950.00	\$5,298,150.00
Land 3,867,925.00	3,723,875.00
Total\$9,285,875.00	\$9,022,025.00
Personal 998,010.00	944,590.00
Total Value \$10,283,885.00	\$9,966,615.00
Tax rate, \$20.00	Tax 1ate, \$17.00
APPROPRIATIONS.	
1899.	1898.
Town Tax including overlayings, \$173,993.82	\$155,419.97
State Tax 5,130.00	5,130.00
County Tax 8,142.46	7,633.93
Metropolitan Sewer Tax 13,345.32	4,421.93
High Level Sewer Tax	2,664.00
Motropolitan Water Tax 758.55	506 12
Grade Crossings (Readville) 8,873.14	56 50
\$212,139.70	\$175,832.45
1899.	1898.
No. polls assessed 3,231	3,200
" dwellings assessed 2,302	2,264
" horses " 495	515
" cows " 132	156
" acres land " 2,058	2,061

PROPERTY EXEMPT FROM TAXATION.

Churches	\$257,000 00
St. Raphael School Association	23,500 00
Harvard College	875 00
Hyde Park Y. M. C. A	5,000 00
Total	\$286,375 00

By comparing the figures relating to appropriations for the years 1898 and 1899, the high rate of taxation of the latter year may be accounted for. It will be seen that the increase in valuation was \$317,270.00, and at the same time the tax levy for 1899 exceeded that of 1898 by \$46,307.25, an increase of more than 25 per cent. Of that amount \$24,700.00 was voted by our citizens in 1898 to be raised by taxation in 1899; the balance, \$21,607.25, may be charged directly to State assessments, mainly on account of the so-called Abolition of Grade Crossings at Readville, and the very marked increase in the assessment on account of the Metropolitan Sewer. It may be noted that the Grade Crossing item in 1898 was \$56.50, and in 1899, \$8.873.14; in 1898 the Metropolitan Sewer item was \$4,421.93, in 1899, \$13,345.32. What these assessments for the ensuing year may be, it is impossible to state; but, probably, not less than the amounts called for last year. In addition to the above, the taxpayers of Hyde Park will be called upon to include in the annual tax levy of 1900, an assessment on account of the Metropolitan Park. The amount of this item cannot be determined at present, but it is safe to assume that the call will not be for less than \$10,000.

Respectfully submitted,

THOMAS E. FAUNCE, GEORGE W. CHAPMAN, CHARLES F. MORRISON,

Assessors.

GERTRUDE L. ADAMS.

* Note. - Charles G. Chick, Esq., chosen by the Trustees and the Selectmen to fill vacancy caused by resignation of William, H. Alles, until another is chosen in his stead by the town.

Public Library. Erected 1898.

REPORT OF THE TRUSTEES OF THE HYDE PARK PUBLIC LIBRARY.

HISTORY.

At a town meeting held in 1871, largely through the influence of the late Theodore D. Weld, a Committee of nine was appointed a Library Committee to inaugurate a movement in favor of a Free Public Library for Hyde Park.

They entered upon their work with great energy, and soon enlisted the support of the public-spirited citizens of the town, then in its infancy. Subscriptions were obtained, a Fair was held, a Course of Lectures, and several Entertainments were given including one by the Public Schools; as the result of their untiring efforts upwards of \$6000 was raised as a Library Fund. The first meeting of this Committee was held in the library of Alanson Hawley who at that time presented them with over one hundred new and valuable volumes which may be regarded as the foundation of the Library. Although in failing health at the time, no one was more earnest or devoted to the cause, but he did not live to see the realization of his hopes.

In their report presented at the annual town meeting in 1872, they gave a detailed account of their labors and recommended that the Board of Selectmen, the School Committee, the Town Treasurer, and the Town Clerk, be appointed a committee for the nomination of a Library Board. In consequence of this recommendation, the following were elected, the majority of whom were members of the original committee:

Theodore D. Weld, Rev. Isaac H. Gilbert, Rev. Perley B. Davis, Rev. E. A. Manning, Edward M. Lancaster,

Hobart M. Cable, Rev. W. J. Corcoran, Mrs. Mary H. Hunt, and E. S. Hathaway. Mrs. Hunt declined to serve, and C. W. W. Wellington was chosen in her place. Upon them devolved the task of creating a Library, of purchasing books, electing a Librarian, and finding a suitable room.

The Library was first opened in March, 1874, in the westerly end of the second story of the brick block at the corner of West River street, and what was then called Hyde Park avenue, now known as Harvard avenue. In 1883 it was removed to the westerly end of the second story of the brick block nearly opposite its first quarters and adjoining the Episcopal church. These rooms which seemed ample when they were secured were soon outgrown and the space required for books gradually encroached upon the Reading Room.

After long and patient effort on the part of the Trustees, and others interested in the welfare of the Library, the town voted an appropriation of \$25,000 in December, 1898, and instructed the Trustees to erect a building on the corner of Harvard avenue and Winthrop streets. Subsequently, before the building had been begun, the town voted \$5,500 more for the purchase of additional land adjoining the original site, and still later \$2,500 for furniture and fixtures. With this money and the Library Fund already in their hands, the Trustees erected the Library Building which is described later in this Report. This was first opened to the public use in September, 1899.

The first Librarian was William E. Foster, then a recent graduate of Brown University, who has for many years past been widely known as the efficient head of the Public Library at Providence, R. I.

Upon his resignation in 1876, after two years of service, the Library was temporarily in charge of J. J. Reeves who was followed later in the same year by Mrs. H. A. B. Thompson who remained in charge for a little over twenty

years. During her long service she saw the Library whose interests she had so much at heart, nearly treble its number of volumes and greatly increase its circulation. She was a wide reader of excellent taste and judgment who was able to render valuable assistance to the Trustees in the selection of books, and to give good counsel to such patrons of the Library as consulted her as to their choice of reading.

She was followed in 1896 by Miss Elizabeth Ainsworth, a graduate of Mt. Holyoke, who had been for some years engaged in teaching. She has brought to her work great energy and efficiency. Miss M. A. Hawley has been permanently employed as Assistant Librarian since 1883, and by her uniform courtesy has won the regard and good-will of everyone who has had occasion to use the Library during all these years.

On the opening of the new building in 1899, Miss Gertrude L. Adams, a graduate of the High School was placed in charge of the Juvenile Room where she has displayed skill and tact.

NEW LIBRARY BUILDING.

As this is the first report of the Trustees since the completion of the library building, it may not be out of place to give a brief description which may supplement the illustrations which accompany the report.

The foundation is of hammered Deer Isle granite and the walls are of gray Roman brick, with terra-cotta trimmings. The inside finish is of oak, with the exception of that in the main reading room.

The outside dimensions of the main building are 43 x 81 feet, with a stock room in the rear 20 x 47 feet. The basement, which is high, well lighted, and free from dampness, has, beside the boiler-room and toilet-room, three large rooms, one of which is used as a work-room, and the other two for storage purposes.

The first floor contains an entrance hall 28 feet in height with a mosaic floor, oak panelling with Tennessee marble base, and an oak staircase; the delivery room, 20 x 40 feet; the juvenile room, 28 x 30 feet; a librarian's room; toilet rooms, and the main reading room, 28 x 40 feet, and 28 in height. This room is finished in the colonial style, having Corinthian pillars and entablature with ceiling beams. At one end is a large fireplace, with Sienna marble facings, and an oak mantel surmounted by an oak clock with a marble dial, generously presented by the Horticultural Society. The walls are surrounded by oak bookcases, five feet in height, containing reference books and magazines for use in the rooms.

The second floor, besides the trustees' room, contains a large room, 28 x 40 feet and 18 feet high, which is used at present by the Historical Society. Whenever the increased demands of the library render it necessary, it can be used as an additional reading room. This room the trustees have called "Weld Hall," in memory of the late Theodore D. Weld. The associate of Phillips, Garrison, Whittier, and others of like high purpose, he was widely known in his earlier years as an eloquent and fearless friend of the oppressed, while in his declining days, having taken up his residence among us, he endeared himself to his fellowtownsmen as a high-minded, public-spirited citizen, zealous in every good work. To his untiring efforts the library was greatly indebted in its infancy.

The stack-room, which is detached from the main building, from which it is separated by fireproof doors, is practically a fireproof structure. It contains iron bookstacks of the most approved design. They will contain 32,000 volumes, and accommodations for 16,000 more can easily be added whenever occasion demands.

The style of architecture is Grecian Ionic, and great care

Delivery Room, showing door leading to Stack Room.

Delivery Room, looking toward entrance.

has been taken to have all the proportions and details conform to the requirements of the style adopted.

The lot on which the building stands is slightly elevated above the surrounding streets, and is bounded 200 feet by Harvard Avenue, 100 feet by Winthrop Street, and 100 feet by Everett Street. It is proposed to beautify this in the spring by setting out trees and shrubs.

The trustees desire to put on record their high appreciation of the skill and fidelity of the architects, Messrs. Clark & Russell, and of the fair dealing of the contractor, Mr. George Howard, who has spared no labor or expense in fulfilling the terms of his agreement in a liberal spirit.

Besides the principal contract, other contracts have been made as follows:

Snead & Co., Iron Works, bookstacks; Magee Furnace Co., represented by Stillman E. Newell, of Hyde Park, heating and ventilating apparatus; The Library Bureau, tables and card catalogue cases; Paine Furniture Co., through George S. Cabot, of Hyde Park, chairs; R. Hollings & Co., lighting fixtures; Hyde Park Granite Co., curbing.

The cost has been as follows:

Building, including architect's fee, heating and		
ventilating	\$26,000	00
Land	12,500	00
Bookstacks, furnishing, grading, etc	6,772	04
	\$45,272	04

The trustees are happy to be able to say that the building has been completed within the amount available, and that there will be a small balance on hand after paying all outstanding bills.

We add the following brief extract from a public address delivered by one of the clergymen of the town.

"Our new Public Library Building is a structure to be proud of as we look at its dignified outward proportions; while within, its simplicity, its loftiness, and its beauty exert upon all who enter, an educational power apart from the books which are treasured within its walls. Our citizens ought never to regret its exceedingly moderate cost, for it is destined to be an investment which will pay back a thousand fold."

The notable gifts which have been received during the erection of the building have been one thousand dollars from Mr. Henry S. Grew, a clock from the Horticultural Society, and one hundred dollars from Mrs. Hamilton A. Hill, in honor of her late husband, who was for a time one of the trustees. This sum has by her request been expended for reference books, which have been placed in the reading room.

The books and magazines especially adapted to younger readers have been arranged on the shelves around the juvenile room, where the children have free access to them under the supervision of an attendant, who is always present to aid them in their selection, and to charge the books desired for home use. The children in this way become to some extent familiar with a much larger number of books than those which they actually read. This privilege has, with few exceptions, been used in a most orderly manner, and the experiment appears to be a decided success.

The classified card catalogue has been completed, each book being entered under its title, under the author's name, and under the subject, with sufficient cross references to make its contents easily accessible to the reader. In addition to the catalogue containing cards for all the books in the library, there is also in the delivery room a case containing a catalogue of all the fiction by itself, and another in the juvenile room containing a catalogue of all the books in that room.

Whenever a new book is added to the library, it is class-

ified, and its appropriate cards are at once added, so that the catalogue is always complete to date, a thing impossible under any other system.

Lists of new books are published from time to time in the local papers, and it is intended to print occasional Finding Lists, under suitable headings, for home use.

A card catalogue of the chief subjects treated in the magazines is now in preparation.

A bookcase placed near the delivery desk contains the more important new books as they are added to the library, so that the reader may have an opportunity to decide from a brief inspection of the book itself whether he wishes to carry it home to read; a decision which it is often difficult to reach from the title alone.

An average circulation of 4,847 per month for the first three months after the opening of the new building as compared with an average of 3,132 for the corresponding months of the previous year, an increase of over 50 per cent., with a like increase in the number of books used in the reading room, shows that the new facilities are appreciated by the patrons of the library.

In October, Mr. William H. Alles, who had rendered efficient service as a member of the building committee and chairman of the board, having removed from town, was obliged to resign his position, much to the regret of his associates. The vacancy on the board was filled by the unanimous election of Charles G. Chick, Esq., whose long service on the school committee gives promise of great usefulness in helping to strengthen the bond which connects the public schools and the public library.

In closing, the trustees wish to express their appreciation of the generous financial support given them by the town, and to ask for the earnest co-operation of parents and teachers in making the library a still more potent factor for moral and intellectual good in our town life. The library

may be a source of moral weakness and mental dissipation instead of moral strength and mental vigor. It is the duty of the library officials to see to it that none but good books are on its shelves, but they cannot decide in what order or in what proportion these shall be read. A host in entertaining his guests may take care that no injurious food is placed before them, but he cannot prevent their neglecting the more substantial and nutritious viands and eating only that which was never intended to form the body of the meal. Delicacies which, taken at the proper time and in the proper proportions, would add a zest to the appetite for more nourishing food will, if used to excess, destroy this healthy appetite and produce disease.

This comparison holds good of the library. The trustees can see that nothing is furnished which is not suitable to read, but it is for the teachers to inculcate such a love of substantial books that the young shall seek them in preference to those of a lighter character; and it is for the parents both to foster this love of good books, and by a careful supervision of their children's reading, to be sure that they are not unduly indulging in books which, though not harmful in themselves, should be used chiefly as a relaxation from more severe mental effort.

We desire also to ask the parents to impress it upon the young people that the reading room is a place for quiet study and not for social recreation, and to suggest an occasional call at the library on their part, that they may see how closely this object is adhered to. It is only by such earnest co-operation on the part of all, that the library can fulfil its highest mission.

For the Trustees,

HENRY. B. MINER,
Chairman.

Part of main Reading Room.

A corner in the Juvenile Room.

LIBRARIAN'S REPORT.

TO THE BOARD OF TRUSTEES:

The following is a report of the Hyde Park Public Library for 1899;

The Library has been open for the delivery of books 251 days, having been closed from July 10 to September 12—54 library days—during the removal and arranging of the books in their new quarters. The Browne system of charging, which replaced the card system in September, is proving very satisfactory.

A re-registration of borrowers began at the reopening of the library. The number now registered in the adult department is 1354; number of new borrowers not previously registered is 598. The age limit of registration in the children's department is twelve years. The number over twelve years of age registered in that department is 379, making a total registration of 1733. The number of persons in the same family entitled to take books has been increased to four. The privilege of taking two books at a time has been welcomed by many of our readers.

SCHOOL COMMITTEE'S REPORT.

CITIZENS OF HYDE PARK:

During the past year you have manifested a marked interest in school affairs, apparently keeping advised of changes which we have been instrumental in making. This is certainly commendable, and cannot but result in substantial benefit to the cause of education in our town. We respond by asking you to continue and increase your interest with us in securing the best attainable results. We invite the closest scrutiny of our official action, and shall consider it a signal favor to receive from you any suggestion for the future or any criticism of the past. This invitation includes in its scope, superintendent, teachers, and scholars, and we shall hope that it will be responded to without reserve, and without apprehension of anyone toward personal results following.

We are now in the second year of the superintendence of our schools, and Mr. F. O. Draper continues in charge, we believe, to very general acceptance. He is having our cordial support, and we fully believe that the outcome of his efforts has been to elevate the standing of the schools. We take the full responsibility of our own action, and if any course which we may adopt should prove an undesireable course, the fault will be ours, and should in no way subject him to criticism any farther than it applies to his method of administration. We believe the schools are moving on in the right way and we shall take no backward step unless the town, which is the legitimate authority, instructs us to take it.

The resignation of Mr. Angleton, in the High School, and of Mr. Cross, in the Fairmount, created vacancies which have been satisfactorily filled. The present condition of the High School is excellent; the new principal, Mr. M. S. Getchell, has shown eminent fitness, and seems fully equipped for his trying and exacting position. has succeeded in bringing to himself the united support of the people, which fact in itself is a tremendous guarantee of right results. Mr. Arthur W. Armstrong has been transferred from the Damon to the Fairmount School, and he has fully demonstrated that an efficient teacher does not suffer in reputation, nor in his accredited ability to teach, by a change of situation. Mr. George L. Farley is Mr. Armstrong's successor at the Damon, and is bringing to his work intelligent and active force. We predict for him a future of exceptional usefulness.

The supervision of drawing is in charge of Miss Anna M. Kimball, who is doing her work to general acceptance. This supervision by a specialist is new to our schools, and we feel that we have been particularly fortunate in securing so efficient a teacher as Miss Kimball to inaugurate the work.

In referring to teachers, we have laid especial stress upon the capabilities of those who are new to us, but this result must not, even by inference, reflect upon the true and tried teachers and specialists who have been a longer time with us. We feel confident that our teachers compare more than favorably with those of other towns, and in proof of this, note how frequently even our cities lay us under contribution, forcing us to surrender them to more prominent positions and higher salaries. This should move us to give larger compensation to those teachers who are qualified to fill advanced positions. They go from us, not because they desire to go, but because their true value receives fuller recognition elsewhere.

In closing our brief report, we wish to renew our request for a new high school building; and to avoid repetition, we invite a re-perusal of last year's report. We ask that the town's people give very careful attention to their action regarding schools, the coming season. We are just now where a thoughtless or reactionary movement might work incalculable harm; for, under our changed system of superintendence, many things are in a transitory state and have not as yet shown the full and satisfactory results which we are sure will come after a fuller test. A great victory will be won if we can keep the schools out of political complications, for they always suffer when they become involved in partizan and factional struggles. Some of our great cities are just now demonstrating the truthfulness of the preceding statement. When the machine politician is concerned, nothing escapes which may conflict with his interests.

We thank the town for the generous support which they have given to the schools in the past, and we confidently believe that the future will witness a continuance of the same.

Respectfully submitted,

E. I. HUMPHREY, Chairman.

For the Committee.

SUPERINTENDENT'S REPORT.

TO THE SCHOOL COMMITTEE OF THE TOWN OF HYDE PARK:

My second annual report as Superintendent of the Hyde Park Public Schools is herewith respectfully submitted.

Following is a summary of statistics for the school year last completed, ending June 30, 1899:

STATISTICS.

The first census under the school attendance law of 1898 was taken in September, 1899. The records differ in form somewhat from those formerly made. The compulsory age limits are now from seven to fourteen, and illiterate minors over fourteen years of age must attend the evening school while its sessions continue. Children of fourteen and fifteen years cannot work in any factory, workshop, or mercantile establishment without an age and schooling certificate.

Your attention is invited to a comparison of two of the items of this year's census with the corresponding figures for last year. At the previous census the number of pupils

in local private schools was 23; this year the number is 5. The number attending schools out of town was 92 last year; this year the number is 24. These figures are significant and encouraging.

GRADING AND PROMOTION.

The subjects of grading and promotion were given careful consideration early in the year. With the consent of the Committee, certain changes have been made which in my opinion are of great importance and, on the whole, of very great value. Heretofore the promotion of pupils from grade to grade and from the grammar schools to the high school has been regulated by the adoption of a standard per cent. mark as a test of qualification, the results of stated examinations by the Committee, in the highest grammar grade, and by the principals, in the lower grades, being averaged with daily marks.

By the present method, daily work is recorded as "E," "G," "F," "U," or "P," and the examinations, which are given by the teachers, are similarly marked and recorded. At the end of the year, pupils whose work for the year does not fall below Fair in any subject are entitled to promotion. Pupils whose work is not satisfactory in all subjects may be promoted on trial if the general character of their work, including attendance, deportment and effort, warrants conditional promotion. Pupils promoted to the high school on trial are entitled to a grammar school diploma at the close of one year of satisfactory work in that school duly certified by the principal.

I believe that I am fully informed as to the best arguments for the percentage system of marking, and for the employment of examinations given by some-one other than the teacher as a test for promotion. I do not wish to be understood as decrying or undervaluing such arguments. I am,

however, positively convinced by my own experience as a teacher and as superintendent, as well as by the testimony of others, that the system now employed is productive of better results. It is true that we must pre suppose ability and integrity on the part of the teachers, to ensure the promotion of such pupils only as are properly qualified. But should a school be so unfortunate as to be without a well-qualified and honest teacher, the proper remedy would seem to be to improve the teaching rather than to inflict a penalty upon the pupils by forcing them to remain in such a school a second year. Yet this latter effect is the outcome of the examination for promotion when successfully applied. In actual practice these examinations do not fully accomplish this end, for reasons well known to examiners.

It is, however, chiefly because of their effect upon that great majority of schools whose teachers are mentally and morally competent that examinations for promotion have been discontinued. As long as these tests stand as the measure of the teacher's success, so long will the teacher's efforts be directed toward preparation for examination. The "confessions" of some of the most successful teachers are interesting and instructive. The mind of the teacher should not be occupied by such thoughts as "What questions is — most likely to ask?" and "What is the easiest and quickest way of storing my children's minds with answers that can be written on demand?" A more fruitful line of questioning is, "What work will best develop my pupils' minds?" "How can I lead them to do that work most thoroughly and effectively?"

The teachers' examinations, which are sent to the Superintendent's office and are open to inspection by the committee, are valuable aids in determining the quality of the work done in the several schools, in this respect fully taking the place of the examination for promotion.

SYSTEMATIC TEACHING.

The quality of much of the teaching in our schools is excellent. It is, nevertheless, imperative that in this respect our schools should constantly advance. It is extremely desirable that the teaching should become more systematic without becoming in any degree mechanical. There is no ready-made "method" that can be introduced with any advantage. Yet the study of method and the application of a rational method to the teacher's daily work is indispensable. But there is a limit to the strength and energy of the teacher which must not be lost sight of. The necessary daily work of the school is no light burden. Even a change of text books adds enormously to the inevitable burden upon every faithful teacher; and the addition of a new subject involves a still greater strain. In view of the facts that the present requirements in vocal music have been in effect little more than two years, that the grammar grades have new geographies, and that drawing directed by a special supervisor is new to all grades, it has seemed best to make other new requirements from the teachers in the elementary schools as light as is consistent with good work. Before the end of the current school year, however, I hope to see a definite gain in thoughtful and systematic teaching. A definite beginning has already been made. The work in method has been outlined and a good number of our teachers are making intelligent efforts towards improvement.

CHANGES IN ORGANIZATION.

During the year there have been important changes in organization. In last year's school report, I recommended a division of the lowest primary class into a first grade proper and a sub-primary class; the latter to include all

pupils too young or too immature to complete the work of the first grade in one year. This recommendation has been adopted, and the sub-primary classes thus formed have made an excellent beginning. Their work consists of such first-grade studies and occupations as are suited to their development, together with a considerable amount of kindergarten work. From previous experience with such schools I am assured that they will prove much better adapted to the needs of the youngest children than the first grade rooms, and that the relief afforded the latter by the division will greatly increase their efficiency.

The other change in organization relates to the grammar schools. By recent vote of the committee, the masters of the grammar schools have sole charge of the eighth grades, teaching all subjects in these grades without assistants. They are thus unable to devote any considerable amount of time during school hours to their administrative duties as principals, and are unable to supervise the work of the lower rooms. This change increases the amount of work required of the masters, and places practically the entire responsibility for the character of the teaching in each room upon its teacher and the superintendent of schools. Except in the matter of the direction and supervision of instruction in the lower grades, the powers and duties of the masters are not altered.

It is too early to pass final judgment upon the general effect of the change. There has been some apprehension as to the results of leaving the grade teachers without the master's daily supervision. While there is a greater demand in several ways upon the qualifications of the teachers for their positions, I am glad to be able to report no apparent difference in the quality of the work or of the discipline as a result of throwing the teachers much more fully upon their own resources.

COURSE OF STUDY.

An entirely new course of study was adopted for the High school at the beginning of the current school year. This course is as broad as the present number of instructors and the equipment of the school allow, and is thoroughly modern in spirit. The form of parallel courses is continued, but the relations of subjects are such that the curriculum might be arranged in the form of a single course with liberal choice of electives.

In the elementary schools the work in geography has been radically changed by the introduction of new text books and the adoption of Frye's "Child and Nature" as the authorized course of study. Of this admirable work, the author of our text books says: "It leaves nothing to be desired in the way of a course of study."

In arithmetic, Dr. Prince's course of study, as outlined in his series of text books and manual, has been adopted, and is being given a trial in our schools. This is practically the new State course of study in arithmetic.

The periods of discovery and colonization in American history have been assigned to the sixth grade for oral teaching and for reading and discussion. I recommend the purchase of suitable books for the history work in this grade.

In grammar and language there has been no change in text books or in the outlines of work. Greater stress is laid upon written language than formerly, daily work of this character being required in all grades.

VOCAL MUSIC.

The rapid development of the work in this department, noted in last year's report, has continued. Supervisor and teachers have worked with commendable zeal, and the results are already apparent. Musical instruction is an

essential element in modern education, and as it exists in our schools to-day it is an unquestioned means of intellectual development. An especially meritorious feature is the individual work which is unusually successful.

The report of the Supervisor follows:

REPORT OF SUPERVISOR OF MUSIC.

MR. FRANK O. DRAPER, Supt. of Schools.

DEAR SIR:—Again it is my privilege to report on the progress of music in our public schools. Without question this department has advanced its standard daring the past year. The improvement in the quality of tone, as evidenced by all classes, first attracts attention.

The voice of each child from the first grade up to the eighth grade inclusive, has been tested. A complete record of this test is in the care of the teachers in the four upper grades. This record includes the name, age, voice, range of voice and an estimate on each pupil's ability to sing tunefully. This record, or voice chart, is open to public inspection. A record somewhat similar is made and kept by the teachers in the primary grades likewise open to public inspection. The teacher thus becomes acquainted with the musical ability of each child.

As it is our aim to cultivate and develop self-reliance in this department, we have required individual singing by at least two pupils each day in all grades below the seventh. This departure has been accomplished with excellent results. Confidence replaces timidity and the pupils take considerable pride and enjoyment singing their studies as solos, duets, and trios, striving to merit approbation.

Musical composition has also received some attention during the past year. One period once in two weeks is set apart for composing melodies four and eight measures in length. While this subject is in its infancy it promises well for the future. It teaches the pupils to think sounds and intervals in succession and guides them to an understanding of the rules of musical notation.

A new feature introduced at the beginning of the school year was the metronome, which is conscientiously used by all the teachers. The metronome demonstrates to the pupil very clearly the difference in tempo and gives a comprehensive understanding of the principal movements in music—allegro, allegretto, moderato and andante.

The most difficult problem that confronts a supervisor of music is universally acknowledged to be found at the high school. In Hyde Park conditions have changed. It is impossible to refer to the music at our high school without speaking of the splendid support and inspiration received from Mr. Getchell, the Principal.

The discipline during the music period is all that could be desired, and today music at the high school is a "live" subject. It is a pleasure to speak of the willing and earnest efforts of the teachers, and I wish especially to thank the committee for their continued interest and generous support of the music, and to the Superintendent I am sincerely grateful for the many helps rendered in the interest of the department of music.

Respectfully,

B. HAROLD HAMBLIN,

Supervisor of Music.

Hyde Park, Jan. 25, 1900.

DRAWING.

The importance of special supervision in drawing was strongly urged in my last report. By the appointment as supervisor of Miss Anna M. Kimball, a graduate of the Boston Normal Art School and a successful teacher of drawing, this subject has been given the place it deserves

in our schools. While manual training should not end here it is now possible to give the motor and executive faculties of every pupil some systematic and effective exercise. Miss Kimball has fully proven her fitness for her position. Her work is in every respect commendable and full of promise.

Following is the report of the Supervisor of Drawing:

REPORT OF SUPERVISOR OF DRAWING.

MR. FRANK O. DRAPER, Supt. of Schools.

DEAR SIR:—The work in drawing under supervision, commenced in September, has been of necessity largely experimental. The effect of good teaching in former years is seen in individual cases, but the conditions under which drawing has been taught have made unity of plan and purpose practically impossible. Here, as in other places, great efficiency is shown by individual teachers, but others acknowledge their need of special help and instruction.

The course used is one approved by high authority and worked experimentally with excellent results in other towns and cities. Besides the work in free-hand drawing it includes elementary work in "manual training," spoken of in the report on drawing of last year as "that important phase of modern education," neglect of which is "fatal to the great aim of the public schools—symmetrical development of the powers of the child."

The systematic study of reproductions from the masters has been carried on with excellent results, showing the refining influences which beautiful pictures exert, especially upon children.

A beginning has been made in the High school by introducing a simple course in industrial drawing into the curriculum of the freshman year, although not compulsory.

This year the class consists of twelve boys, who are instructed by one of the High school teachers. The interest

seems good, and it is hoped that this will lead to the introduction of other courses.

It is impossible at this early date to estimate the progress made, but enthusiasm and interest, two essentials of this branch of work, are sure to bring progress and excellent results.

I have been supported by the School Committee and Superintendent of Schools in a very gratifying way. Coming as a stranger to a new position, I wish to express my appreciation of the kind and sympathetic reception and cooperation of the teachers, and the respectful and willing spirit manifested by the pupils.

In closing let me urge the value of intelligent interest of parents who, I believe, simply need to know the value of this subject and what it has accomplished elsewhere to give it their most hearty support.

Respectfully submitted,

ANNA M. KIMBALL,

Supervisor.

Walnut Hill, Mass., Jan. 27, 1900.

HIGH SCHOOL.

Upon the resignation of the Principal of the High school at the close of the school year, Mr. Merle S. Getchell, a master in the Somerville English High School, was appointed to fill the vacancy.

Mr. Getchell's record in Somerville and as Principal of the High school department of the New Hampshire State Normal School was one of unusual ability and success, and was a guarantee of ample qualifications for his new position. Since his appointment he has further demonstrated his fitness by his wise administration of the school, and by the strength of his class-room work. It would be difficult to over-estimate the value of his services as teacher and principal. A detailed account of the work of the school under his charge is given in the following report.

REPORT OF HIGH SCHOOL MASTER.

MR. FRANK O. DRAPER, Supt. of Schools:

Dear Sir, — In accordance with your request, I submit herewith the annual report of the High School for the year 1899.

The enrollment on December 22, was 238. The membership was 230. The membership by classes was as follows:

I. year, (entering class),	107
II. year,	58
III. year,	34
IV. year,	26
Postgraduates,	5
Total,	230

Judging from the last term's record in regularity of attendance, I can see no reason for any great loss in numbers during the coming year, but rather for a marked increase. Among such a large number, much absence on account of sickness and other imperative causes is quite necessary, but there is little excuse for tardiness and dismissal. While they do not appear in figures representing average attendance, they are as injurious to the best interests of the school and pupil as absence; particularly dismissal. Requests are constantly presented for the dismissal of a pupil to go in town by a certain train or to keep an appointment with a dentist. While we uniformly accede to the request, it is with some regret, believing that the parent does not perceive that the loss of that time in school, even if there were no recitations for that particular pupil, will affect the work of the pupil for some time to come.

Thus, while the numbers and average attendance are good, they may be made much better in fact and result by a determined attitude on this question by those having pupils in school.

During the year there have been two changes in the teaching force. In April, Miss Bessie M. Hooker, of Amherst, Mass., was elected to succeed Miss Edith R. Nickels; and in June, on the resignation of Mr. Angleton, a new principal was chosen. It gives me great pleasure to speak of the willingness and earnestness with which the teachers have taken up the work of the year. The school day of five hours is divided into six periods of about forty-five minutes each, exclusive of recesses. Out of the thirty periods a week, the teachers are teaching twenty-six to twenty-eight. This gives very little time for the correcting of exercises or for consultation with pupils.

In response to a general demand for a new course of study, one was prepared during the summer, and adopted on trial for the year. It was printed and forwarded to all the pupils and those interested in school matters before the opening of the term. English and History were emphasized for the first year. Physical Geography was placed in the first year of the English course, and Zoology in the second year of the Classical and Latin-scientific courses. French or German was offered in the second year of the English course, thus affording an opportunity for three years of continuous study in one of the two subjects. Spanish was offered as an elective in the third year as an inducement to those taking the Commercial course to continue their work for at least another year. Drawing was made an elective for the first year. There are two small classes in this subject. It is to be hoped that a way may be seen in the near future to open this course to all of the classes. The departure of the whole course was in the introduction of the elective system. It has been received with universal satisfaction. In our small High schools where there are two classes of pupils, those intending to go no farther than the High school and those preparing for college, it is sometimes very difficult to arrange the programme. The former, with the advice of parents and teachers, should have every opportunity to select their studies. The latter, unfortunately, have little if any choice. The necessary work has been mapped out for them by the higher institutions. After they have entered the High school, and have signified what institution they desire to enter, the work for the remaining years must be assigned by the master. The zeal and interest of the pupils shows that the course is well adapted to the school. With a few changes in details, I can see no reason why it should not be adopted as a permanent course.

The changes in the course of study necessitated many changes in text books. One of our prominent educators says: "While frequent changes in text books are to be deprecated, it must be borne in mind that educational progress has been as marked in the preparation of text books as in other directions, and that it is well to take advantage of circumstances to replace poor by better." I believe that this has been done. There are, however, several places where the work would be much strengthened by the introduction of a good text book. It is the custom in many places to have a large number of equally good books on each subject on the adopted list. This does not cost anything and is oftentimes of great advantage. Two books of nearly equal merit are often tested by using one book in one division, and the other in a second division of the same class. The books are loaned to the pupils over their signatures, and are inspected regularly.

It is almost impossible to do the required work of to-day in a proper manner without library facilities. Some time ago a library was started in the High school, but the few books were almost inaccessible to the pupils. Recognizing the demands which laboratory and library methods would make on our resources, we have attempted to meet these demands as far as possible by furnishing one corner of the large room with a table and books procured from the Public Library. The Trustees of the Public Library kindly loaned one of the tables from their old rooms, and also granted us the privilege of obtaining as many books at one time as we required, and keeping them as long as they were needed. The privilege thus extended to the school is fully appreciated by pupils and teachers. We are not able, however, to accommodate all who desire to take advantage of these opportunities, and better facilities in the way of tables, books, and shelves, should be provided.

With the demand for extended work in the library, comes that for more work in the laboratory. As we noticed in our course of study, science work has been added to that which existed before, so that now there are courses in Physical Geography, Zoology, Botany, Physics, Chemistry, Geology, and Astronomy. All the work must be done in one laboratory—the chemical. While we are being furnished with necessary supplies to carry on this work, it is not economical, in the truest sense of the term, to allow such a condition to exist very long. The room is quite well fitted for classes in chemistry, but there is no opportunity for the teaching of the other branches.

I noticed in the report for last year that the Battalion was reorganized at that time. Work was begun promptly with the opening of the autumn term, and has since been steadily pursued. Uniforms have been procured by the larger number, and the Battalion may be said to be uniformed. As long as the weather permitted, company and battalion drills were carried on out of doors. Work is now being done preparatory for the Junior Prize Drill, to be given in February.

Much is said for and against athletics in the schools, but it seems necessary to recognize such sports as baseball, football, and polo in a school of any size, although a very small proportion of those interested actually take part in the games. This is no place for argument, but those in touch with school work will quickly recognize the truth of the above statement. The experience of schools is, that when properly managed, it does not detract from school duties, but on the whole quickens. It gives me pleasure to report that steps are being taken to form an organization which shall control all athletic interests, and be responsible to the school in a businesslike way for receipts, expenditures, etc. The young man who is trained to meet a rival in the proper spirit, and to be responsible for monies entrusted to him, must be better fitted for the responsibilities of life.

One of the questions which appeared for solution at the beginning of the year was physical training for the young ladies. The young men had two periods a week for drill, while the young ladies took the time for study. After careful consideration, Miss Claire DeLano, of Montclaire, New Jersey, a graduate of Emerson College of Oratory, was invited to take charge of the work. From the first time that Miss DeLano met the classes there was no question as to the result of the work. Her own enthusiasm with the ready response of the young ladies insured success.

Such are some of the features of our work. The year as a whole has been most successful. With pupils, parents, teachers, and school officials working in harmony, the end sought will soon be attained.

In closing, I desire to thank committee, parents, pupils, teachers, and you, Sir, for the hearty support which I, during my short period of service, have received.

Respectfully submitted,
M. S. GETCHELL, Master.

CHANGES IN GRAMMAR PRINCIPALS.

Mr. Edward W. Cross, who had served the town faithfully as Grammar School Principal for a quarter-century, retired from his position as Master of the Fairmount School at the close of the school year. The vacancy thus created was one of great importance, and by no means easy to fil adequately. Fortunately, Mr. Arthur W. Armstrong, Master of the Damon School, accepted the position with its added responsibilities. Mr. Armstrong brings to his new position unusual native abilities enriched by liberal education and successful experience in teaching. The school is sure to prosper under his charge.

The Damon principalship has also been happily filled by the appointment of Mr. George L. Farley, a graduate of Dartmouth College with one year of resident post-graduate work. Mr. Farley's previous experience had been gained in high school teaching. He resigned his position as teacher of science in the Hanover High School to accept the principalship of the Damon School. He is doing excellent work, and has won the regard of his pupils and of the patrons of the school.

EVENING SCHOOLS.

Your attention is requested to the following interesting account of the work in the three departments of these valuable schools:

EVENING SCHOOL PRINCIPAL'S REPORT.

F. O. DRAPER, Esq., Supt. of Schools,

DEAR SIR:—Herewith I submit a report of the Evening Schools from the 31st of January. 1899, to the 31st of January, 1900.

The present term opened on the evening of October 30, 1899, with five teachers in attendance. October 30 and 31

were taken for the registration of students. The regular work of the school commenced on the evening of November 30, with a large attendance in all departments.

ENGLISH DEPARTMENT.

This department has been in charge of three teachers. One for the advanced work and two for the elementary work. There was a very good attendance in both classes until after December 1, 1899. About that time the numbers fell off and in consequencethe teaching force was reduced to two teachers. In the month of January of this year the numbers decreased so that it was thought advisable to continue with but one teacher. Elementary and advanced classes are now in one room.

Registration from January 31, 1899, to March 30, 1899:

Average age, 18
Average age, 20 yrs. 8 mos.

Present attendance, 13 No. of sessions in the year, 81

BUSINESS DEPARTMENT.

This department has a course covering a period of two years and it is similar to the High school course. The registration this year has been in excess of that of any other year. The indications are that there will be at least six students to receive the diploma of this department for their work in Stenography. There will be also an equal number entitled to certificates for their work in Bookkeeping.

Registration from January 31, 1899, to March 30, 1899:

DRAUGHTING DEPARTMENT.

In this department the course of study has been arranged to cover a period of four years, and the students are in classes. During the season 1898-1899 all students were in one class, the first year. The work covered a good portion of the elements of machine construction. On the 30th of March, 1899, there was an exhibition of the best drawings of the students. A number of the drawings represented home work. Upwards of sixty drawings were exhibited.

The department this season is in charge of Joseph C. Riley, an instructor in the Institute of Technology. Mr. Riley has taken up the work where it was left by the Principal of the school last year and it is being carried on as originally intended.

The classes and their work are given herewith.

First year class - those students who had not had mechanical drawing until this year.

The students have had seven plates on simple geometrical drawing, and two practice sheets of lettering. Seven plates of working drawings of wooden objects, that is, a panelled fence post, a blind mortise joint, etc. A tracing, on cloth, of a pulley wheel. At this point the class was divided into mechanical and architectural sections. The mechanical section is at present making working drawings of simple machine parts. They work from sketches. The architectural section is working from sketches on the plans

of a small cottage house. In this section the study of the Orders of Classic Architecture is taken up.

Second year class—four students who have had work of this kind before entering the class. Students in the mechanical section have made three sheets of details of a small steam valve, working from the object and making their own measurements. At the present time they are working on a cam design. In the architectural section the work at present is on the plans and elevations of a frame house.

All students of the second year class have made four plates each on projection; three of the students in this class have had work in the construction of ellipses as preparatory to the drawing of irregular curves such as are required in cam design.

Registration from January 31, 1899, to April 30	, 18	99: `
Registered,	14	
Average attendance,	14	
Average age,	19	
Registration from October 30, 1899, to January	31,	1900:

No. of sessions during the year,		70
Extra sessions,		12
		_
Total sessions,		82

CERTIFICATES.

Certificates were issued for the first time during the season of 1898-1899. The only class receiving certificates last year was the drawing class. In this class there were twelve certificates issued. I think that the issuing of certificates for meritorious work will prove to be of much value to the school, in that it will have a tendency to keep the students interested and keep them in the school until they complete their course of study.

A certificate is issued for each year's work, and at the end of the course a diploma is given and the certificates are taken up by the school.

The teachers in the various departments have been interested in their work and have given the students all assistance necessary to a complete understanding of the subject being studied.

Respectfully submitted,

A. W. LOWE, Principal of Evening Schools.

INDUSTRIAL SCHOOL REPORT.

TO THE COMMITTEE ON INDUSTRIAL SCHOOL:

The vacation school for carpentry opened in the little Everett school building, as heretofore, July 6th, 1899, and closed August 23rd, 1899.

Seventy-eight boys applied, and continued with good interest during the term.

The average daily attendance was twenty-nine, and the average age twelve years.

Respectfully,

GEO. E. WEBB.

Hyde Park, Jan. 1, 1900.

TRUANT OFFICER'S REPORT.

HYDE PARK, MASS, Dec. 31, 1899.

MR. F. O. DRAPER, Supt. of Schools:

DEAR SIR, — Please find below an account of my services as Truant Officer for the year ending December 31, 1899.

Total n	umber of cases investigated,	176
Numbe:	r of truants,	37
66	absent with parents' consent,	52
66	absent on account of sickness,	48
6.6	absent on account of lack of clothing.	8

Numbe	er removed from town,	6
4.4	attending private schools,	5
6.6	absent from other causes,	2
6.6	looked up from transfer cards,	18

Respectfully submitted,

HENRY V. HARWOOD,

Truant Officer,

SEWING SCHOOL REPORT.

The Sewing School for the summer of 1899 began July 6, with an attendance of eleven in the printed cloth class, and sixteen in the unbleached samples class. These classes were taught in the morning.

The printed cloth class used the pieces of printed cloth devised by Miss Johnson, the teacher of sewing in the Brookline schools, and also made practice pieces following the same outlines.

The unbleached sampler class made a sampler of unbleached cotton showing, when finished, the different kinds of stitches, patches, seams, and fells.

The bleached sampler class, which was held afternoons, made samplers of fine white cotton showing, when finished, the same as the unbleached samplers and also a band, a gusset, a darn, cat stitch, embroidery edge stitch, etc. On account of the limited time and the irregularity of attendance, these two classes were unable to complete their work.

In the drafting class, each girl took measures, cut and drafted a pattern, and made a dressing sack. With the exception of two, they were all finished, and those on account of absence.

The attendance was varying, the smallest number present in the morning being eleven, the largest thirty-two, and the average twenty-three. The smallest number present in the afternoon was eight, the largest twenty-five, and the average fifteen. The whole number of sessions held was twenty-nine—fifteen in the morning and fourteen in the afternoon. The per cent. of attendance mornings was forty-five per cent., and that of the afternoons, fifty-one per cent.

KATE FARLIN, Teacher.

PUBLIC INTEREST IN THE SCHOOLS.

An active and intelligent interest in the schools characterizes a very large proportion of our citizens. The ready response to the suggestion of a permanent educational organization of parents and other friends of the public schools of Hyde Park was, I believe, thoroughly characteristic, and certainly has been an abundant source of gratification and moral support to those whose first interest is the improvement, by every possible means, of the quality and extent of public education. The formation of the Hyde Park Education Society is an indication of a healthful and wide spread interest which is deserving of every encouragement.

The problems of school management require time for their solution. True progress in education, like education itself, is a matter of growth and development rather than of upheaval and violent transformation. That the changes of the past year have not been spectacular is matter for congratulation. That there has been unusually rapid development along right lines, seems to be very generally conceded. As contributing toward this gratifying condition of school affairs, the influence of self-sacrificing personal effort on the part of the committee, the faithful devotion of teachers, and the interest and hearty support of citizens cannot be overestimated.

Respectfully submitted,

FRANK O. DRAPER,

Superintendent.

Hyde Park, January 29, 1900.

APPENDIX.

HYDE PARK HIGH SCHOOL.

GRADUATING EXERCISES

OF THE

CLASS OF '99,

Wednesday, June 21, 1899,

AT 8 P. M.,

IN WAVERLY HALL.

PROGRAMME.

1	"Great Dagon has Subdued Our Foe," from "Sampson"
	High School Chorus.
2	*Salutatory, Miss Ramseyer
3	Essay, "Other Folks Do So," Miss Huestis
4	Essay, "The Increase of the Navy," Miss Worrick
5	RECITATION, † Miss Wood
6	Piano Solo, "Theme and Variations," Shubert
	Miss Simmons.
7	Essay, "Trusts," H. D. Darling
8	Essay, "Her Composition," Miss Wright
9	Song, "Summer,"
	Miss House.
10	*Class History, Miss Cotter
11	Music, "Happy Dreamland," Speranza
	Selected Chorus.
12	Essay, "The Good Old Times," Miss Albee
13	*Class Prophecy, Miss Bursch
14	*Valedictory. , Miss Burgess
15	CLASS ODE,

- 16 Presentation of Master's Prize, PRESENTATION OF DIPLOMAS, . Mr. E. I. Humphrey 17 Chairman of School Committee. "SANCTUS AND BENEDICTUS," 18 Gounod Miss House, Soloist.
- * Honors by Rank.
- † Excused.

GRADUATES.

FOUR YEARS' COURSE.

Lillian Gertrude Albee, Hildur Sophia Bloom, Clara Louise Bursch. Harold Duncan Darling. Alice Brigham Farnsworth, Charles Jones Graham. Alice Howland Haskell. Ethel Faunce House, Charles Mowry Lockwood, Elizabeth Helen Richardson. Harold Blackmer Waldron, Wilbert Nichols Williams,

Amy Clifton Blodgett, Emma Ruth Burgess, Mary Alma Cotter, David Lincoln Davis. Frances Hortense Fowle. Helen Mildred Hale, Harriet Valentine Hodgdon, Winifred Flora Huestis. Marie Ramseyer. Edna Florence Simmons, Rosamond Wild, Florence Ethel Worrick,

TWO YEARS' COURSE.

Henry Coleman Cook, Sylvester Arthur Gardella, Albert Warren Morse. Susan Irene Wood.

Charles William Franklin, Carrie Estella McAskill. Rufus Alden Simmons, Georgienna May Wright.

CLASS ODE.

Words by H. D. Darling.

Music by Alice B. Farnsworth.

Four years have glided from our lives
Since first we met some sixty strong.
Alas, are these few comrades here
All that these years have passed along?
Ah me, 'tis true, some duty called,
With cheering hopes or doubting fears;
We whom they left forget them not;
Farewell, ye friends of former years.

May fortune on your footsteps move;
May she to us prove also kind.
We, too must now her favors seek,
And as we merit, may we find.
So ever let us shun disgrace,
Tho' wealth and power may it repay.
For honor lives beyond the grave,
Power and wealth but for the day.

Blank pages are the future's book.

In which with true unswerving hand
We write the record day by day,
Of all we've done and all we've planned.
May pride of birth and pride of home,
And pride of Alma Mater dear,
Uplift, sustain, and nerve us all
To keep our daily pages clear.

HYDE PARK GRAMMAR SCHOOLS.

GRADUATION EXERCISES

OF THE

CLASSES OF '99,

ΑΊ

WAVERLY HALL,

Thursday Evening, June 22,

AT 7.30 O'CLOCK.

INSTRUMENTAL MUSIC BY THE GREW SCHOOL ORCHESTRA,

MR. GEO. E. M. DICKINSON, Instructor.

First Violins, Misses Simmons, Paine, E. and A. Rollins, Chase. Second Violins, Misses McKenna, Burgess, Martin and Master Drechsler. Cornet, Master Post. Clarionets, Masters Stackpo'e, Orcutt and Bass.

Clarionets, Masters Stackpo'e, Orcutt and Bass. Flute, Master Hazard.

'Cellos, Messrs. Stockbridge and Hibbard.

Bass, Miss B. Simmons. Piano, Miss Wright.

Trombone, Miss Wallace.

Drums and Traps, Master Carberry.

PROGRAMME:

Selection, Gloria, from Farmer's Mass in B-flat, Arr. by Gruenwald Orchestra.

DECLAMATION, The Critical Condition of Labor, Ex-Pres. Harrison William James Brown.

Classes.

DECLAMATION, "Apples Finkey," the Water-boy, Chester M. Bates.	John J. Rooney
RECITATION, The Boy of Ratisbon Dora L. Lyon.	Robert Browning
Essay, Our Town,	. Original
Solo, The Sword of Ferrara,	Bullard
RECITATION, The Black-eyed Rebel, Florence E. Bent.	. Will Carleton
RECITATION, The Mourning Hero's Vision, Gertrude S. Dunbar.	. Louis Kessuth
Chorus, In the Hayfields,	Pinsuli
CONCERT RECITATION, Lady Claire,	Darling, Devine, Combie, Mitchell, Simmons, Smith,
Medley Overture, Songs of the Boys in Blue, Essay, The Country Store, Nellie May Farnsworth.	L. P. Laurendeau Original
RECITATION, The Well of St. Keyne, Grace H. Faulkner.	. Robert Souther
RECITATION, New England's Fairest Boast, . Mabel J. Blood.	. S. S. Prentiss
Chorus, Water Lilies,	Linder
RECITATION, The Railroad through the Farm, Grace Day Forsythe.	Sam. Water Foss
RECITATION. Home, Sweet Home, Brida Holmes.	Somerville
March, Gardes du Corps, Orchestra.	. R. B. Hall

PUPILS PERFECT IN ATTENDANCE.

DAMON SCHOOL.

First Term :- Fred Shreve, William Hartnett.

Second Term: Mary Kivilin, Fred Shreve, Peter Smith, Kate Harnett.

Third Term:—Louisa Dunbar, Katherine Liddell, William Mathews, Florence McEneneay, Sarah Hardy, Daisy Lyon, William Smith, Fred Shreve, Alfred Johnson, Lydia Isherwood, Marion Frost, Lilly Ober, Eddie Cox, James Hartnett, Mabel Morgan, Marion George, Ben. Clough, Harry Clark.

HEMENWAY SCHOOL

First Term :- Frank Mahoney.

Second term:—Clarence Stewart, Harold Liddell, Frank Mahoney.
Third term:—Dwight Cabot. Clarence Stewart, Ruth Alden, Henry Hardy.

GREW SCHOOL.

First term:—Arthur Albee. Marion Beal, Albert Carter, Mabel Carter, George Carter, Walter Clifford, Leseur Collins, Allen Hazard, George Hoyt, Robert Jank, William Jank. Allen Kiley, Mame Knapp, Chester Knapp, Junior Knight, Harold Lingham, Meriam Loder, Elizabeth Moltedo, St. John Morrison, Marjorie Mitchell, Helen Newell, Charles O'Connell, Mary Partridge, Walter Paine, Fannie Rooney, Helen Rooney, John Rooney, Henry Savage, Ray Seavey, Marion Smith, Mabelle Tourtlelotte, Benjamin Wandless, Chester Webster, Maurice Waldron, Stanley Wheeler, Avis Wallace, Angeline Creaser, Rose Estes.

Second term:—Fred Becker, John Barry, Angeline Creaser, Leseur Collins, Rena Crowell, Richard Chapman, Walter Clifford, William Carter, Walter Drechsler, Lena Erler, James Haskell, Eliot Howard, William Jank, Robert Jank, Junior Knight, George Killam, Addel Meistar, Hollis Mertz, Esther Marks, Carl Meister, Fred McDougall, Leo Marks, Marjorie Mitchell, Joseph Melia, Helen Newell, Charles O'Connell, Mary Partridge, Walter Runnells, Walter Schroeder, Ethel Smith, Ray Seavey, Samuel Schwab, Florence Tilley, Mabelle Tourtellotte, Benjamin Wandlass, Edith Webster, Lillian Wyman, Avis Wallace, Ella Wetherbee, Perley Schwartz.

Third term:—Arthur Albee, Margaret Barry, John Barry, William Brown, Vera Carle, Albert Carter, Alexander Carberry, Le Seur Collins, Mildred Collyer, Alice Cowen, Walter Clifford, Laura Darling, Clarence Elliott, Lena Erler, Eben Fisher, William Geyer, Harvey Gray, Annie Geyer, Mabel Gray, Robert Gwillim, Charles Herliky, Lucile Howe, William Jank, Herbert Jank, Mary Kenney, Mamie Knapp, Linda McAdam, Hollis Mertz, Elizabeth Moltedo, Helen Newell, Susan Newell, Esther Marks, Joseph Melia, Effie O'Neal, Charles O'Connell, Helen Rooney, Susie Rooney, Frank Savage, Dana Savage, Walter Schroeder, Katherine Scully, Gretta Snellgrove, Bertha Schroeder, Grace Sandow, Julia Sullivan, Mabelle Tourtellotte, William B. Taylor, Edith Webster, Chester Webster, William Wood, Ralph Waldron, Stanley Wheeler, Lillian Weymouth, James Wood, Angeline Creaser, Mary Fisher.

GREENWOOD SCHOOL.

First term:—Grade VIII. Clement Bradley, Annie Caffin, Helen Courtney, Rae Cowperthwaite, Louis Gerry, Charles Griggs, Lizzie Griggs, Frank McGregor, Mabel Reid, Anna Riley, Marion Rogers. Grade VII. Alice Graham, George Greenlaw. Grade VI. Frank Crooker, Clara Grant. Catherine McIntire, Lucy McKenna, Walter White. Grade V. a. Ella Gerry, Fred Kelley. Grade V. b. Ruth Adams, Bernard Courtney, George Greenwood, Frank Gunn, Marie Lauppe, Olga Mortonson, Annabel Phinney, Grade IV. Clifford Post John Roman. Grade II. Arthur White. Grade I. Ada Griffiths.

Second term:—Grade VIII. Harry Buck, Rae Cowperthwaite, Frank McGregor, Bessie Gunn, Chauncey Waldron. Grade VII. Laura Googins, Charles Norwood, Ralph Strout. Grade VI. Walter White. Grade V a. Margaret Bryce, Josephine Fisher, Fred Kelley, Mary Neilson. Grade V. b. Ruth Adams George Greenwood, Marie Lauppe, Alma Pommer. Grade IV. Walter Carlton, Hattie Gunn, Fred Miller, Clifford Post, Harriett Pommer, Anna Rausch, John Roman. Grade III. Jesse Googins, Mildred Hersey, Carl Miller. Grade II. Herbert Kraus, Etta McDonald, Roy McVitae, Raymond Wright.

Third term: Grade VIII. Clement Bradley, Harry Buck, Louis Gerry, Frank McGregor, Elsie Downie, Lizzie Griggs, Bessie Gunn, Helen McIntyre, Mabel Reid, Carrie Strout, Chauncey Waldron. Grade VII. Ralph Chipman Laura Googins. Alice Graham, Florence Greenlaw, George Greenlaw, Josephine Kiander, Jeanie Sargent. Grade VI. Frank Crooker, Charles Dame, Clara Grant, Maude Hersey, Emily Holser, Annie Kupke, Maud May, Margaret Townsend. Grade. V a. George Anderson, Dorothy French, Josephine Fisher,

Joseph Gazan, Ella Gerry, Gertrude Greenlaw, Roberta Kraus, Mary Neilson, Katherine Riley, Ethel Seavey. Grade V b. Ruth Adams, George Greenwood, Marie Lauppe, Annabel Phinney, Alma Pommer, Clarence Seavey. Grade IV. Edith Anderson, Leah Berthlestein, Sophora Bliss, Thomas Cass, Walter Carlton, Hattie Gunn, Jessie Grant, Moses Long, Harriett Pommer, Clifford Post, John Roman, Anna Rausch, Olive Story. Grade III. Earle Bliss, Mildred Chipman, Marion Cook, Bertha Elwell, Marion Googins, Dora Ferguson, Ralph Story, Austin Townsend, Lipmon Simmons. Grade II. Frank Cass, Loster Cloatman, Eva Griffiths, Herbert Kraus, Robert Mathias, Otta McDonald, Lizzie McLean, Roy McVitae, Arthur White, Raymond Wright. Grade I. Marguerite Black, Robert Bryce, Walter Cass, Ada Griffiths, Harold Grant, Allan McAlpine, Walter Ott, Llewellan Rockwell, Elizabeth Roman,

AMOS WEBSTER SCHOOL,

First Term.—Edwin Dyer, Allie Strachan, May Bryce, Lynde Partridge, Grace Neilson, Myra Sargent, Gladys Dowley, Mary Strachan, Elizabeth Strachan.

Second Term.—Allie Strachan, Ellinor Clogston, Florence Adler, Lucy Lufkin, May Bryce, Marjorie Ticknor, Frances McIntire, Lynde Partridge, Grace Neilson, Connie McIntire, Mary Strachan, Elizabeth Strachan.

Third Term.—Edwin Dyer, Allie Strachan, Allan Gray, Florence Adler. Harold Hill, Frances McIntire, Elsie McLeod, Cecil Fogg, Marion Spear, Marion Wheeler, Lynde Partridge, Grace Neilson, Alice Spear, Evelyn Wheeler, Morton Mortonson, Mary Strachan.

BUTLER SCHOOL.

Third Term.-Helen I. Cameron.

FAIRMOUNT SCHOOL.

First Term.—Florence Bent, Ora Chadbourne, Andrew Cleaveland, Gertrade Cox, Mabel Farley, Grace Forsythe, William Haigh, Sarah Hall, Hazel Hall, Walter J. Hall, Reuben Hamilton, Mabel Hamilton, Francis Hammatt, Frank Henderson, Harry Hinds, Minna Hope, Frank Hurley, Bradford Jones, Cassie Keane, Marga et Krene, Grace Kerwin, Joseph Lodge, Daniel Mahoney, Mary Maurer, Lucretia Mayo, Burton, McAfee, Allie J. Mc Viee, Alice McAskill, Milton MacGregor, Alan McIntyre, Chester Mellen, Winnie Milne, Mary Mulhern, Charlie Rich, Fred Rich, Mildred Rogers, Alice Ryan, Ross Sampson, Norman Scott, Wellington Stewart, Charlot e Stuart, Harvey Wasserboehr, Ethel Wilkinson, Percie Worrick.

Second Term.—Arthur Andrews, Leila E. Beal, Nellie Beard, Florence Bent, Altha Berry, Grace Campbell, Andrew Cleaveland, Allen Covell, Florence Damon, Carola Dinsmore, Mabel Farley, Elizabeth Fiske, Sarah Hall, Walter J. Hall, Hazel Hall, Renben Hamilton, Mabel Hamilton, Carrie Higgins, Clitton Hope, Ruth Hope, Lucretia Mayo, Allie J. McAfee, Burton McAfee, Kenneth McAskill, Irving McKenna, Chester Mellen, Etta Milne, Mary Mulhern, Alice Norris, Michael Pazine, Mildred Perry, Roy V. Perry, Oscar Peterson, Ernest Richardson, Alice Ryan, Ross Sampson, Annie Scott. Lincoln B. Scott, Lawrence Scott, Bernice Shepard, Florence Shute, Helen Straw, Charlotte Stuart, Mary Wilkinson, Willie Wood, Percie Worrick, Margaret Mellen.

Third Term.—Ray Alexander, Maud Bartlett, Ruth Bartlett, Jessie A. Brown, Grace Campbell, Lester Campbell, Sadie Campbell, Andrew Cleaveland, Howard Cluff, Allen Covell, Agnes Cunningham, Florence Damon, Carola Dinsmore, Louis L. Drummey, Elizabeth Elliot, Mabel Farley, Elmer Farley, Elizabeth Fiske, Grace Forsythe, J. Ellery French, Ethel Gibson, Sarah Hall, Walter J. Hall, Percy Hall, Donald Hargraves, Leonora Harwell, Frank Henderson, Georgie Heustis, Harry Hinds, Minna Hope, Bradford Jones, Margaret Keene, Joseph Lodge, Edward Maley, Lucretia Mayo, James Mayo, Kenneth McAskill, Milton MacGregor, Bertha McIntyre, Alan McIntyre, Sarah McIntyre, Irving McKenna, Roy V. Perry, Bessie Pierce, Alice Ryan, Ross Sampson, Esther Sampson, Annie Scott, Lawrence Scott, Lulu Scrivens, Charlotte A. Stuart, Stanford Tappan, Bessie Walsh, Harvey Wasserboehr, Ethel W. Ikinson, Percie Worrick, Lawrence Cluff.

Perfect in Attendance for the Year.—Andrew Cleaveland, Sarah Hall, Walter J. Hall, Lucretia Mayo, Alice Ryan, Ross Sampson, Charlotte A. Stuart, Percie Worrick.

DISTRICT LINES.

DAMON DISTRICT.

Beginning at the northwesterly corner of the town; thence by the former line between Dedham and Dorchester to Mother Brook; thence by the brook to Neponset River; thence by the river to the Milton line; thence by town boundaries to the point of beginning.

HEMENWAY PRIMARY DISTRICT.

The territory on the south side of the New York and New England R. R., leaving Sprague street optional.

GREW DISTRICT.

Beginning at the northwesterly corner of the town; thence by the former line between Dedham and Dorchester to Mother Brook; thence by the brook to the iron bridge on Hyde Park avenue; thence by the centre of Hyde Park avenue to Pine street; thence by Pine street and Maple street, including both sides of said streets, to Fairmount avenue; thence by the centre of Fairmount avenue to Davison street; thence by the centre of Davison street to Walter street; thence by the centre of Walter and Webster streets to the tracks of the Boston and Providence R. R.; thence by the said railroad tracks to West street; thence by the centre of West street to the Boston line; thence by city or town lines to the point of beginning.

GREENWOOD DISTRICT.

Beginning at the Neponset river on Walter street; thence by the centre of Walter and Webster streets to the tracks of the Boston and Providence R. R.; thence by the railroad track to West street; thence by the centre of West street to Boston line; thence by the city and town lines to the Neponset river; thence by the river to the point of beginning.

AMOS WEBSTER PRIMARY DISTRICT.

The territory from the New York and New England R. R. to the Boston and Providence R. R.; and from River street on the south to the Greenwood district lines on the north.

BUTLER PRIMARY DISTRICT.

Beginning on Walter street at the Neponset river; thence on said street, both sides, to River street; thence on River street, both sides, to Metropolitan avenue; thence on Metropolitan avenue, both sides, to Westminster street; thence on Westminster street, both sides, and by an extension thereof, to town line, thence by said line to said river; thence by said river to the point of beginning.

FAIRMOUNT DISTRICT.

Beginning at the iron bridge on Hyde Park avenue; thence by the centre of Hyde Park avenue to Walnut street; thence along Walnut street, on both sides, to Fairmount avenue; thence by the centre of Fairmount avenue to Davison street; thence by the centre of Davison street to Walter street; thence by the centre of Walter street to the Neponset river thence; so running as to include all that portion of Hyde Park easterly of said river.

WELD PRIMARY DISTRICT.

The territory lying southeast of the New York and New England R. R. and northeast of Fairmount avenue, leaving the said avenue optional.

FOURTH ANNUAL REPORT

OF THE

Board of Sewer Commissioners

OF THE

TOWN OF HYDE PARK

FOR THE

YEAR ENDING JANUARY 31, 1900.

HYDE PARK:

HYDE PARK GAZETTE PRESS.

1900.

ORGANIZATION.

FERDINAND A. WYMAN, Chairman.

DAVID PERKINS. WILLIAM U. FAIRBAIRN.

RICHARD M. JOHNSON, Clerk.

A. D. NICKERSON, Engineer.

GEORGE A. KIMBALL, Consulting Engineer.

BOARD OF SEWER COMMISSIONERS' REPORT.

TO THE CITIZENS OF HYDE PARK:

Your board of Sewer Commissioners is pleased to report that they have had the efficient service of the same engineers as for the two years preceding, — Mr. A. D. Nickerson as engineer and Mr. George A. Kimball, member of the Metropolitan Sewer Commission, as consulting engineer. The Board remains organized as last year.

The expenditures under the supervision of the Board for the year ending January 31, 1900, have been \$49,194, as per vouchers on file and exhibited in detail in Table No. 1, annexed to this report. The value of stock on hand is \$5446.66, as exhibited in detail in Table No. 2, annexed to this report. The outstanding liabilities amount to \$1646.74.

Your Board reports in its fourth annual report the construction of 14,735 feet of sewers. The average depth has been 9 feet 6 inches; the average size has been 8 inches.

The details of that construction are exhibited in detail in the following table:

SEWERS CONSTRUCTED IN 1899.

It will be noted that the most important work begun during the year has been a trunk sewer through the Page street The sewer runs nearly parallel to the brook through the low land lying between Huntington avenue and Central avenue at Page street, thence through Page street and across private land to Park street. A number of interviews and some correspondence were had with the owners of property along the line. Options were finally obtained for a 40 foot strip for the sum of \$4,635 for 62,500 square feet of land. On June 28, 1899, the Board made a taking in fee of this strip, which is wide enough for sewer purposes and also for any future improvements. In July the Board advertised for bids for construction of a part of this sewer; on July 17, the contract was awarded to P. H. Rooney, the lowest bidder. Construction in the Page street area was begun August 10. Progress has been slow, due to the large quantity of rock encountered. The contract calls for the construction of about 7300 lineal feet of sewer, to be completed on or before June 1, 1900.

It will also be noted that important sewer construction has been done in the Readville district. In July the Board advertised for bids for constructing sewers in Hyde Park avenue, sections 8 and 9, from Factory street to the Read ville Machine Shop.

The contract was awarded July 17th to Long & Little, the lowest bidders. This is the heaviest sewer construction this department has undertaken. It consists of about seven-eighths of a mile of 20 inch and 24 inch vitrified pipe laid at depths ranging from 7 to 22 feet through materials varying from quicksand to solid rock. The crossing of Mother Brook was made with extra heavy cast-iron pipe 24 inches in diameter. It was necessary to construct a concrete foundation the entire length of this sewer.

Three hundred feet of new first-class fire hose has been purchased to be used solely for flushing. The whole system was flushed in May and December 1899.

The proposed construction of the Metropolitan High Level Sewer across and beneath Stony Brook in the Clarendon Hills district has led your Board to make a study for the further improvement of that brook. As stated in our annual report for 1899, this High Level Sewer will relieve the Clarendon Hills district.

The town of Hyde Park will pay its just proportion of the cost of this High Level Sewer. But the economy to the town is apparent, as it will obviate the necessity of building over a mile of town sewer at a cost of not less than \$60,000.

Pursuant to (1) Chapter 287 of the Acts of the Legislature for 1896; (2) the vote of the Town Meeting of March 24, 1897; (3) the vote of the Board of Sewer Commissioners of January 25, 1899; sewer assessments have been completed, a system of proper blanks have been prepared, and bills have been duly rendered for all estates upon streets in which sewers have been constructed. 1345 bills have been rendered, amounting to \$92,707.17. At the date of this report the assessment on 518 estates has been paid in full and the assessment on 49 estates has been partially paid. The total amount paid on assessments is \$33,068.26; 246 bills have, upon due application, been apportioned.

The Board is fully satisfied with the progress in the administration of this assessment. And the Board wishes to thank the citizens for the prompt and cheerful manner in which they have met this additional but necessary burden.

One hundred and nineteen house connections, aggregating 5,892 feet in length, have been made the past year. The total number made is 318, total length, 16,642 feet. This work is all done under the supervision of the Board, upon application by the owners made on blanks obtained from the Board, the owner paying the actual costs, which amout to about 60 cents per lineal foot.

The following figures should be of vital interest to every citizen:

Population of Hyde Park about	13,000
Population of the sewered area about	8,000
Total number of dwellings, stores and public buildings,	2,450
Number of dwellings, stores and public buildings in	
the sewered area,	1,250
Total number of house connections,	318
Number of dwellings, stores, and public buildings	
served,	493
Number of persons contributing to the sewers	2,500

It is thus seen that only one-fifth of the people of Hyde Park are availing themselves of the use of the sewers.

The situation thus disclosed is an unsatisfactory one. Your Board has before this had occasion to urge upon all citizens the importance of connection with the system of sewers. A system of sewers is no protection to a town unless it is used by all.

The large amounts of money appropriated to this public service are spent in vain unless the system is used by all. The householder who does not connect his premises with the public sewerage system endangers not only himself, but his neighbors, and the whole community. Your Board wish in this report to urge upon every householder his obligation to take immediate steps to connect his premises with the public sewers. Although your Board is quite aware that it fully

performs its duty by providing the public system of sewerage, and that the power to compel householders to connect their premises with that system lies in another of your town Boards, yet your Board wishes in this public way to appeal to the good sense of the citizens,—That henceforth your Board may feel no responsibility in this regard.

FERDINAND A. WYMAN, DAVID PERKINS, WILLIAM U. FAIRBAIRN.

Board of Sewer Commissioners of The Town of Hyde Park. Feb. 1, 1900.

AUDITORS' REPORT.

In compliance with the By-laws of the Town, the undersigned have examined the books of the Selectmen, School Committee, Cemetery Commissioners, Board of Health, Sewer Commissioners, and Town Treasurer, and proved them correct; all payments being accompanied by duly approved vouchers.

We have made a very thorough examination of the books and accounts of the Collector of Taxes, and find upon comparison with his submitted report, a balance of \$84.13 on account of 1897 taxes, and \$41.35 on account of those of 1898, said amounts having been debited in his accounts, and will appear in his next annual statement.

It is the opinion of this board that the Tax Collector, when making his annual report, should submit a list of all unpaid taxes; not only those of the current year, but of all previous years, in their entirety. It must be very evident to every voter of the benefits that would be derived by such a procedure, and would recommend that the town take some action on the matter.

By the report of the Board of Health, it will be seen that the receipts for swill are kept in possession of the board, and not turned in to the Town Treasurer, the purpose being, we are told, to defray certain expenditures at convenient times without drawing orders on the Town Treasurer. This has been a custom of their predecessors but, as it is a keeping of a fund within a fund, we take the liberty of mentioning it without recommendations.

It is also the opinion of the board, that the Assessors each year should submit in the Town Report an itemized statement of abatements made by them during the year, and would recommend that the town so instruct.

In the report of the Sewer Commissioners there is an item which they have not mentioned.

There is a cash balance to the *credit* of the town of \$1,489.61, which is an accumulation of funds since the commencement of sewerage construction, and is composed of the profit on pipe, inspection, and superintendance. This fund is in charge of the Sewer Commissioners.

In conclusion, we wish to bring to the attention of the voters a matter which should receive their considerate attention.

It has long been a custom that in issuing the Town Report that it should be ready for distribution before the town election, in March. A few years ago this could be done, but the work of some of the departments has increased to the extent that it has become quite an effort to compile their respective reports within the time limit, and give the printer the necessary time to publish them.

It would seem that if, in the future, the reports could be distributed one week before the *appropriation* meeting next following the annual town election, that they would serve their purpose as well, and thus greatly assist the officers of the several departments.

We would recommend the adoption of the above suggestion.

Respectfully submitted,

HOWARD S. THOMPSON, CALVIN P. FELLOWS, JOSEPH J. HOUSTON, Board of Auditors.
